## **INDEPENDENT AUDITORS' REPORT**

The Board of Directors  
Apple Valley Heights County Water District  
Apple Valley, California

We have audited the accompanying financial statements of Apple Valley Heights Water District, as of and for the years ended June 30, 2021 and June 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Apple Valley Heights County Water District, as of June 30, 2021 and 2020, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and the state regulations governing Special Districts.

**Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary information, shown on page 16, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

June 30, 2021 and 2020

---

### **THE AGENCY**

Apple Valley Heights County Water District (the "District") was formed January 17, 1957, under the provision of the California Water Code. Its boundaries encompass approximately 960 acres. The District is governed by the board of directors (five members) elected by the voters within the District for four year terms. The District provides water to customers within its boundaries.

### **THE BASIC FINANCIAL STATEMENTS**

Apple Valley Heights County Water District is a special purpose government (special district) engaged only in activities that support themselves through user charges and tax levies. Accordingly, the accompanying financial statements are presented in the format prescribed for proprietary funds by the Governmental Accounting Standards Board. As a proprietary fund, the Agency uses the full accrual basis of accounting. Proprietary fund statements offer short-term and long-term financial information about the activities that operate like a business.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The notes are located immediately after the basic financial statements.

The basic financial statements are made up of the statement of net assets, statement of revenues, expenses, and changes in net assets, and the statement of cash flows. Each statement is described in detail below.

The statement of net assets presents information on the District's assets and liabilities. Assets reflect what is owned and liabilities reflect what is owed. The difference between assets and liabilities is reported as net assets. The change in net assets is one way to measure the District's financial health. Increases and decreases are indicators of whether its financial health is improving or deteriorating, respectively.

The statement of revenues, expenses and changes in net assets describes the results of the District's financial activities during the years reported. It shows the change in net assets by comparing operating and non-operating revenues with operating and non-operating expenses. Operating revenues and expenses relate to the principal business activity of the District. All other revenues and expenses are classified as non-operating.

The statement of cash flows describes to the financial statement users how the District managed its cash during the year. It tells the user from what sources the District received cash and for what purposes cash was used. The statement converts operating income (or loss) from the statement of revenues, expenses and changes in net assets into actual cash provided by and used in operations. Additionally, the statement of cash flows details how the District obtains and spends cash for investing financing activities.

(A Special District)

## NOTES TO FINANCIAL STATEMENTS

June 30, 2021 and 2020

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Reporting Entity**

Apple Valley Heights County Water District (the “District”) was formed January 17, 1957, under the provision of the California Water Code. Its boundaries encompass approximately 960 acres. The District is governed by the board of directors (five members) elected by the voters within the District for four year terms. The District provides water to customers within its boundaries.

#### **Method of Accounting**

The accounts of the District are organized on the basis of fund accounting. Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled. The District’s funds are accounted for as an enterprise fund type of the proprietary fund group. The accrual basis of accounting is used for the enterprise fund. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the governing body has decided periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with water sales to customers.

#### **Basis of Accounting**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The enterprise fund is accounted for on a flow of economic resources measurement focus. This measurement focus emphasizes the determination of net income. The accrual basis of accounting is used for the enterprise fund. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Pursuant to GASB Statement No. 20, “*Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*”, all Financial Accounting Standards Board (FASB) statements and authoritative pronouncements issued before November 30, 1989 are applied to proprietary operations unless they conflict with GASB pronouncements. The District has elected not to apply FASB statements issued subsequent to November 30, 1989.

The District adopted the provisions of Governmental Accounting Standards Board Statement No. 34, “*Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*”. Statement No. 34 established standards for external financial reporting for all state and local governmental entities, which includes a statement of net assets, a statement of revenues, expenses, and changes in net assets, and a statement of cash flows. It requires the classification of net assets into three components: (1) invested in capital assets, net of related debt; (2) restricted; and (3) unrestricted.

# Apple Valley Heights County Water District

(A Special District)

## NOTES TO FINANCIAL STATEMENTS

June 30, 2021 and 2020

---

These classifications are defined as follows:

- (1) ***Invested in capital assets, net of related debt*** – This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net assets component as the unspent proceeds.
- (2) ***Restricted*** – This component of net assets consists of constraints placed on net asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- (3) ***Unrestricted*** – This component of net assets consists of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt”.

When both restricted and unrestricted resources are available, it is the District’s policy to use unrestricted resources first and the restricted resources as needed. As of June 30, 2021, the District had no restricted resources.

### **Budgets and Budgetary Accounting**

The Board of Directors does not operate under any legal budgeting constraints.

### **Cash and Cash Equivalents**

For purposes of the statement of cash flows, the District considers all highly liquid debt instruments purchased with an initial maturity of three months or less to be cash, including restricted assets.

### **Accounts Receivable**

The District extends credit to customers in the normal course of operation. The District considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If it is determined that they are uncollectable, they are written off as bad debt expense.

### **Prepaid Expenses**

Expenses for insurance or other operating costs extending to future accounting periods have been recorded as prepaid expenses.

# Apple Valley Heights County Water District

(A Special District)

## NOTES TO FINANCIAL STATEMENTS

June 30, 2021 and 2020

---

### **Capital Assets**

Capital assets are stated at cost. Depreciation is provided on a straight-line basis over the estimated useful lives which range from five to forty years. Depreciation expense, for the years ended June 30, 2021 and 2020, was \$39,555 and \$36,511 respectively. It is the policy of the District to capitalize property, plant and equipment with a cost of \$5,000 or more. Expenses for routine maintenance and repairs are charged to expense as incurred.

### **Compensated Absences**

The District has no requirement for retirement or compensated absences.

### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **NOTE 2 – CASH AND INVESTMENTS**

### **Cash Deposits**

The carrying amounts of the District's cash deposits were \$537,499 at June 30, 2021. Bank balances before reconciling items were \$529,475 at that date, the total amount of which was collateralized or insured with securities held by pledging financial institutions in the District's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the District's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the District's name.

The market value of the pledged securities must equal at least 110% of the District's deposits. California law also allows financial institutions to secure the District's deposits by pledging first trust deed mortgage notes having a value of 150% of the District's deposits. The District may waive collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC).

The District follows the practice of pooling cash and investments of all funds, except for funds required to be held by fiscal agents under provisions of bond indentures. Interest income earned on pooled cash and investments is allocated on an accounting period basis to the various funds based on the period-end cash and investments balances. Interest income from cash and investments with fiscal agents is credited directly to the related funds.

### NOTE 5 – CONSTRUCTION IN PROGRESS

Mesa Vista pipeline and storage tank project. This project includes the installation of Mesa Vista street pipeline and the three aging Mesa vista Storage Tanks will be removed and replaced with two new bolted steel tanks. The two new tanks are proposed to have a combined storage capacity greater than the required 79,711 gallons. Well site electrical improvements include installation of a pump station to transfer water purchased from Golden State Water Company to the Mesa Vista tank site, as well as installation of permanent or portable generator. The costs incurred to date include design and engineering. The construction phase is scheduled to begin in the Fall of 2022.

### NOTE 6 – LONG-TERM DEBT

The District agreed in September, 2008 to reimburse the County of San Bernardino for costs incurred by the County for a waterline relocation project on Central Road during the year ended June 30, 2009. Payments are due each year with an interest rate of 0%.

	Balance July 1, 2019	Additions	Reductions	Due in one year	Long-term balance June 30, 2021
San Bernardino County	\$ 11,100	\$ -	\$ 11,100	\$ -	\$ -
Interest rate: 0%

(A Special District)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2021 and 2020

---

**NOTE 7 – UNRESTRICTED NET ASSETS**

Certain amounts shown as unrestricted net assets have been reserved by the Board to be used for specified purposes as listed below:

	<u>2021</u>	<u>2020</u>
Reserved for capital improvement (Meter Sales)	216,331	146,635
Surcharge Reserve Fund	66,433	44,727
Reserved for water rights	17,960	17,960
Reserve for Construction - Grant Fund	9,971	9,970
Reserved for capital improvement (replacement fund)	114,247	\$ 86,805
Total Reserved unrestricted net assets	<u>\$ 424,942</u>	<u>\$ 306,097</u>

**NOTE 8 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to theft of, damage to, and destruction of assets, and injuries to employees. The District mitigates these risks through internal control procedures, physical security of assets, and safety training of employees. Additionally, the District maintains liability and property insurance through participation in the Joint Powers Authority, Association of California Water Agencies Joint Power Insurance Authority (ACWA/JPIA). See the Joint Power Agreement (Note 8) for nature of participation. Settled claims have not exceeded this coverage in any of the past two fiscal years.

**NOTE 9 – JOINT VENTURE**

The District participates in a joint venture under a Joint Powers Agreement (JPA): the Special District Risk Management Authority. The relationship between the District and the JPA is such that the JPA is not a component unit of the District for financial reporting purposes.

The Special District Risk Management Authority has budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements.

- A. Entity                                      Special District Risk Management Authority
- B. Purpose                                    To purchase property and liability insurance for member districts and provide a program of self-insurance for workers compensation.
- C. Participants                                Special districts in California
- D. Governing Board                         Two directors selected by the California Special Districts Association and five elected from membership and certain members from the special districts.
