£ note: the pages in this signature gathering for this book are not contiguous. This means that for FSLF4c28, someone supplied sigs. 2N6 and 2N6v from another copy or section of F4 that was even more fragmentary or defective.

It's entirely possible that the private copy has the same deficiency, since it doesn't look as though anyone examined it in the necessary detail.

So: seventeen sheets, but 66 pages rather than the usual 68.
