

Advanced Holistic Professional Certification

With Katie Malloy Ramaci

This program is an opportunity to further develop your holistic skills and/or your healing. It is open to those who are ready to expand their capacity to facilitate healing on a much deeper level. The program focuses on utilizing energy work to take the client (and yourself) into areas that can resolve trauma, limited perspectives, familial patterns, karma, and shadow parts. Through several processes, gain a greater connection to self and insight into areas that restrict our life, health, souls development, abundance, relationships, peace and life path. Work with the more challenging aspects of self and understand the lessons and needs that keep sabotaging our goals. Embrace and strengthen your connection to Divine Beings and Higher Selves to bring more love and compassion into daily living and your holistic profession.
