

ANNUAL PUMP STATION HEALTH CHECK

PROACTIVE SYSTEM EVALUATION

Dakota Pump recognizes the value in proactive planning, maintenance and servicing. Like anything else mechanical to maintain the equipment on a regular basis, identifying impending operation issues and planning for future needs results in less downtime, cost savings and peace of mind. Our engineers and technicians are dedicated to providing solutions that are proactive versus reactive whenever possible.

PROACTIVE MAINTENANCE PLAN

Annual maintenance saves money by identifying small problems before they become big. Our service technicians are equipped with top of the line equipment, parts and unmatched expertise. Partner with the experts at Dakota Pump to develop a Proactive Maintenance Program that fits your system!

DPI partners with these fine companies, but services any make of pumping equipment.
