

VISION

CONTRACT MANUFACTURING

Vision Contract Manufacturing was founded in the heart of American furniture manufacturing, possessing the country's most capable resources: From skilled multi-generational cut and sew specialists to equipment suppliers and textile mills supporting an assortment of finished goods manufacturing.

UPHOLSTERY CAPABILITIES 2022

TWO VISIONARIES ■ ONE FOCUS

Bringing manufacturing into the future with an incredibly experienced, talented and diverse team

"We are experienced, motivated and dedicated to providing creative solutions for projects of all sizes, from upholstery to apparel, from medical PPE to commercial, institutional and home furnishings."

CHRIS MORRIS

"Chris and I both see what is possible, to bring manufacturing into the future to ensure the best quality from start to finish on every order, every time... for a long time."

ORGANIZATION

VISION PERFORMANCE

We are a privately held corporation headquartered in High Point, NC. We have performed for Great Wolf Lodge, Fountain Bleu's JW Marriott, Embassy Suites, Hampton Inn and IHG properties, including OEM manufacturing for healthcare, residential and higher education.

- SolidWorks® computer aided design program
- Cloud based system management software
- Real time production tracking system
- 40+ multi-function sewing machines
- 3 cutting tables
- Pathfinder CNC fabric cutting machine
- Woodshop with CNC panel cutting machine

VISION FACILITY

Startup investment included nearly three million dollars in technology and infrastructure. Our facility encompasses 130,000 sq.ft. manufacturing floor, 30,000 sq.ft. warehouse, 12 shipping docks and 15,000 sq.ft. of office space with state-of-the-art equipment throughout the operation.

- Dedicated patterning room
- Hydraulic lift tables for all fabricators
- Upholstery line roller safeguard systems
- R&D and Patterning Room
- On-site frame assembly
- On-site finishing room
- On-site employee gym

DEDICATED TO DESIGN ■ DEVOTED TO QUALITY

We love collaborating to transform your vision into a masterwork of visual interest and purpose

"We have been in contract furnishings for over 25-years. When we decided to build Vision, our goal was to be technology driven and promote an employee forward environment to attract an innovative and motivated generation to the upholstery industry. Since our founding, we have managed to do both."

"We have modeled Vision production, employee training and factory lay-out based on the Toyota Way Principles of Lean Manufacturing. We will be competitive going forward, we will be as lean as possible and will continue to invest in advanced technologies."

UPHOLSTERY CAPABILITIES

LOUNGE SEATING

Vision lounge seating is built for lasting performance. We use incomparable materials, framing, foam, springs, and hardware, assembled to look fabulous, function flawlessly and endure for years.

SOFA SEATING

Sofas, Sofa Sleepers, and Sectionals are a passion and obsession at Vision. We understand these series must possess superior quality and comfort to achieve ultimate guest satisfaction.

ACCENT SEATING

Accent seating offers elements of style and fashion. Your imagination is our delight. We collaborate to transform your vision into a masterpiece of visual interest and purpose.

BENCHES AND OTTOMANS

Vision accessory seating conveys an impressive statement with dynamic appeal. We love creating functional AND stunning benches and ottomans.

IT BEGAN WITH A VISION ■ IT BECAME REALITY

Our goal was to be technology driven and promote an employee forward environment

OPERATIONS

COLLABORATION

Account managers, designers and engineers get things started

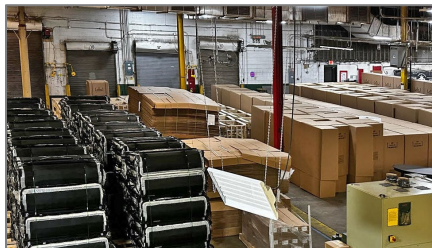

CAD DESIGN & RENDERING

Concepts, objectives and designs are executed for review

PROTOTYPING

If required, prototyped first articles are produced for final approval

SUPPLY CHAIN

Integrated supply chain ensures material and component availability

LEAN MANUFACTURING

Deadlines given are deadlines met with technology and automation

WAREHOUSING

Ample warehousing accommodates release and delivery requirements
