FEBRUARY 2025 - GROWTH STARTS WITH YOU

The growth of any business is rooted in strong and focused leadership. Employee and company development cannot surpass the vision and expectation of the leader, or owner. Effective business leadership results in positive company morale where employee productivity and retention is higher, while sales continue to increase creating brand recognition. All this growth and efficiency begins with you – the owner, the boss, the leader.

How does a leader effectually impact the progression of their business? According to the [Indeed.com](https://www.indeed.com/career-advice/career-development/business-leader)'s article "10 Tips for Being an Effective Business Leader", some basic strategies for successful leadership for growth include being a leader with a positive attitude, being self-aware, continuing to learn, and respecting people's time (<https://www.indeed.com/career-advice/career-development/business-leader>).

There are other strategies for effective, strong, and directed leadership. The main thing to remember is that if you want your company to grow, it starts with you.

If you want to succeed you should strike out on new paths, rather than travel the worn paths of accepted success.
