In-person styling is billed hourly and includes both consultation time and travel.

Let's make your home feel pulled together, functional, and effortlessly you — without the overwhelm.

We had the absolute pleasure of working with Tayler to design our baby boy's nursery, and the entire experience was flawless! Tayler's keen design sense truly shines through, as reflected in her own beautiful home. I reached out to her for help with our nursery because I knew her vision would be spot-on – and I was right! She thoughtfully incorporated every detail, taking inspiration from the pictures I had shared, and created a space that felt perfectly tailored to us. Every time we walk into the nursery, I'm filled with gratitude because it's exactly what I had envisioned but couldn't quite pull together myself. Tayler made a seemingly overwhelming process so easy by presenting a stunning design layout that I could envision right away. I can't recommend Tayler enough for any of your design needs – 10/10 experience!

Marci xoxo

All interior styling packages are non-refundable. Once a package is purchased, I take time to understand your overall vibe and vision, including any specific products or items you would like incorporated into your space. I may ask a few clarifying questions to ensure the final design feels thoughtful, cohesive, and true to you. Thank you for your understanding and for trusting me with your home.
