

The iVMS-4500/Guarding Expert setup for local devices

To setup the iVMS-4500 for your local devices (DVRs, NVRs and cameras), just open the menu and click on "**Devices**".

Click the (+) button to add a new local device.

Click the *Manual Adding button* on the top right side

Enter all the information to add the DVR, NVR or camera

A screenshot of a mobile application interface showing a 'New Device' form. The form has a red header bar with a back arrow on the left, the text 'New Device' in the center, and a camera icon on the right. The form itself is white with a light grey border. It contains several fields: 'Alias' with the value 'my local DVR', 'Register Mode' with the value 'IP/Domain', 'Address' with the value '192.168.2.140', 'Port' with the value '8000', 'User Name' with the value 'admin', 'Password' with a masked value '.....', and 'Camera No.' with the value '0'. Each field has a small 'x' icon to its right for clearing the input.

After adding the devices, just click the button "*Start Live View*"

Start Live View

And... it's done ! You have live image from the DVR.
