K.O. Dyne™

Concentrated Iodine Udder Wash

Directions for Use

Udder Washing:

Add 30 ml (1 oz.) of K.O. Dyne to 18.9 lites (5 gal.) warm water (not over 43°C/110°F) for a 25 ppm solution. Use a clean single service towel for each cow. Wash and massage teats and udder. Never dip used towel back into solution. Discard solution if visibly dirty. Prepare fresh solution for each milking. Dry teats and udder with clean single service towel prior to attachment of milking units.

NOTE: Amber to brown color of use dilution is an indicator of solution strength. A fresh solution should be prepared if a noticeable change occurs in the initial color of the solution.

DO NOT USE AS A TEAT DIP.

Product Properties

Appearance:	Dark brown liquid
Odor:	Iodine
pH:	2.3 (1% solution)
Specific Gravity at 25°C (77°F):	1.08
Solubility:	Complete at recommended use dilutions.
