

Betem Acrylic Marker Key Codes

BETEM

Instructions:

1. Dual tip markers with a 1mm fine tip on one end, and a flexible, rounded dot nib on the other. Depending on the pressure applied during use, you are able to draw dots of varying sizes.
2. Use your Pens with water to create delicate watercolor effects, Or, use without water for dry-brush painting, sketching, coloring, calligraphy & more.
3. Water-based pigment ink is water resistant and lightfast. Ink color is resistant to sunlight exposure, and therefore does not fade easily. We recommend this product to be used for crafts, so your treasured memories will be preserved for ages.
4. Inks are conforming to the EN71-3 and ASTM D-4236 approved.
5. Comply with MSDS and ASTM F963 testing certification
6. Inks are complies with TRA test

CAUTION: SMALL PARTS INCLUDED
