To color the face of the cat first color the inside of the ears and the nose with #4 and let dry.

Create two paints with #1 and #2. Use #2 primarily for the face, using #1 to create shadows along the side of the nose, under the eyes and the crown of head. Color the paws with the #2 paint.

Create a paint using #5. Brush on with a wide brush or sponge brush. Deepen the creases with the #5 Pencil.
