

## Instructions for Coloring and “Blinging” Embroidered Sewing Machine – Red

### Supplies Needed:

Embroidered Sewing Machine (approximately 11 x 14 inches stitched area)

Gelly Roll pens in the following colors (coloring guide is included in instructions but you don't necessarily have to color it the way I did):

1. Red Stardust (719)
2. Rose Stardust (721)
3. Silver Stardust (744)
4. Red (M19)
5. Red Metallic (519)
6. Silver Metallic (553)

Bling Kit (all the stones necessary to bling according to the photo included in kit. Please note that there are just a few extra stones of each color so be careful when handling the rhinestones).

Iron or Mini Iron. The best way to attach most of these stones is with a mini iron preferably one that has a rhinestone tip. A regular iron can be used but may prove to be cumbersome when setting the very smallest stones.

Pair of tweezers for placing the stones. Any tweezer will do but I find that embroidery tweezers or medical supply tweezers at least 4.5" long work the best.

Roxanne's Baste it with the small nozzle for precise glue placement. Although the stones are all hot fix (meaning that the glue on the stone is activated by heat), I found it somewhat easier to put a spot of Roxanne's Baste it glue down, place the stone on the glue then let the glue dry (for about 5 minutes). Then hit the stone with your iron or mini iron. The Baste it glue holds the stone exactly where you want so you can place the iron on it without worry of the stone shifting under the iron.

There is no particular step by step process other than it is easier to color first then place the stones. The photo included should be the best guide for coloring as well as where exactly to place stones. However, there are detailed diagrams of each part of the sewing machine labeled with number associated with a particular stone. Please see the Excel spreadsheet printout for the rhinestone name, the size and the color code for each stone. I have also provided a close count of how many stones are used throughout the process.

If you are having difficulty setting the stones (i.e., they don't seem to stick once heat activated) you may want to refer to the VERY DETAILED instructions provided by the following link:

Enjoy!

The Red Machine uses Gelly Roll pens in the following colors:

1. Red Stardust (719)
2. Rose Stardust (721 or 720)
3. Silver Stardust (744)
4. Red (M19)
5. Red Metallic (519)
6. Silver Metallic (553)

For the boxes with rectangles within each box, alternate the colors from 1 to 6, making sure the silvers are in between each red color.
