## CURIOUS PEEKER KITTY COLORED ON WHITE FABRIC

Color #	Inktense Pencils

The key to making the colors look good on this design is to color a single color. Apply the fabric medium then let it dry completely before moving on to the next color. Try to apply the colors in the sequential order above.

For the eyes, color lightly first then apply fabric medium. While the area is still wet, overcolor with #1 in the corners of each eye to darken.
