I have listed two different sets of coloring tools that can be used on all three dogs. The coloring instructions included in this document will be as they are designated here. However the colors are very similar if not exact. Beginners may feel more comfortable using fabric markers rather than pencils.

If you need further assistance you can check out my YouTube channel for various tutorials on how to use Inktense pencils and how to color with fabric markers. The link is provided here (hold Your phone camera to QR code to link to page):
