

Texas Wildflowers with Hummer
Bees and Butterfly –
Colored with Acrylic Markers

Practice Picture

TIP: Color in this order: Bluebonnets, Stems, Coneflowers, Wine Cups, All Foliage, Bees, Butterfly, and finally Hummingbird

The acrylic marker set seen in this picture is the Pagather Acrylic Marker 24 pen set. I have numbered the pens as I have used them in this set of instructions. If you have a different set try to match the colors as closely as possible to match the final rendering in these instructions.

**NOTE: Color bees with #1 and #20. Let #1
Dry completely before coloring with #20.
Use #14 on the wings.**

Color the butterfly in your own desired colors.

When color code reads: "#/#" it means
Color with the first color then over color
With the second color.

For the hummer belly, coat with fabric medium, then color very lightly using #7 blending well so there is no distinct line

For the wings and tailfeathers: coat each area with fabric medium then
Color with each color listed. Blend with a little more fabric medium so
That there is no distinct line between each color.

When there are multiple numbers stacked in an area (such as a leaf), Put fabric medium down first, then color each color then use brush To blend all the colors together.

Some of these design areas are very small. If no number is in the space, please refer to another similar area for the Correct color.

NOTE: ALWAYS SET THE SMALLER STONES FIRST BEFORE SETTING THE LARGER STONES!

Bling Placement

For the bluebonnets use smaller #1 and #3 stones
In the smaller bluebonnet blossoms and the
#2 stones for the larger bluebonnet petals.

There are other blue colors in #6 that
You may want to use as well.

Bag #6 is both a mix of colors and
SS10 and SS16 stone sizes. I have taught
This class for almost 6 years and everyone
Seems to want their own colors for the butterfly,
The leaves and the flowers so I have tried to
Provide a wide selection for your artistic creativity!
