

To promote the better health and well-being of older people through encouraging inter-disciplinary learning and development, research and sharing excellence in practice.

The Role of AHPs in supporting an ageing population

Birmingham & Solihull ICS is delivering a workshop in partnership with the Institute of Health & Ageing for current or aspiring Allied Health Professionals (AHPs), support staff, and individuals from the community engaged in caring for older adults. This session aims to explore the AHP's role in supporting the elderly population, covering new developments and innovative roles..
