COSMIC

Stimulation, relaxation, comfort...
the bathroom reintroduces us to
ourselves through objects that
transcend the merely functional.

Activarse, relajarse, sentirse cómodo...
en el baño nos reencontramos con
nosotros mismos, a través de una
serie de objetos que trascienden lo
meramente funcional.

Cosmic

Cosmic conceives the bathroom as an reflection of a person's personality and the search for wellbeing through design. One of the most global and suggestive offers on the market: accessories, furniture, washbasins, bathtubs, fittings, lightings, mirrors and free-standing accessories.

Cosmic entiende el cuarto de baño como un reflejo más de la personalidad de cada individuo y su búsqueda del bienestar a través del diseño. Una de las ofertas más globales y sugestivas existentes en el mercado: accesorios, muebles, lavabos, bañeras, grifería, iluminación, espejos y complementos.

Eugeni Quitllet

Eugeni Quitllet

Ibiza-born (1972), he graduated from Llotja Art School in Barcelona.

"I am a HYPERDESIGNER. It is reaching a point where reality and fiction meet in what we could consider the limit of what is productive".

Eugeni Quitllet creates bestselling objects between drawings and sculptures, mastering fullness and voids to reveal elegant silhouettes hidden in the material. His creative vocabulary surpasses the simple relationship between function and style introducing new objects to the contemporary design scene, always with unwavering enthusiasm.

Nacido en Ibiza (1972), se graduó en la escuela de arte Llotja de Barcelona.

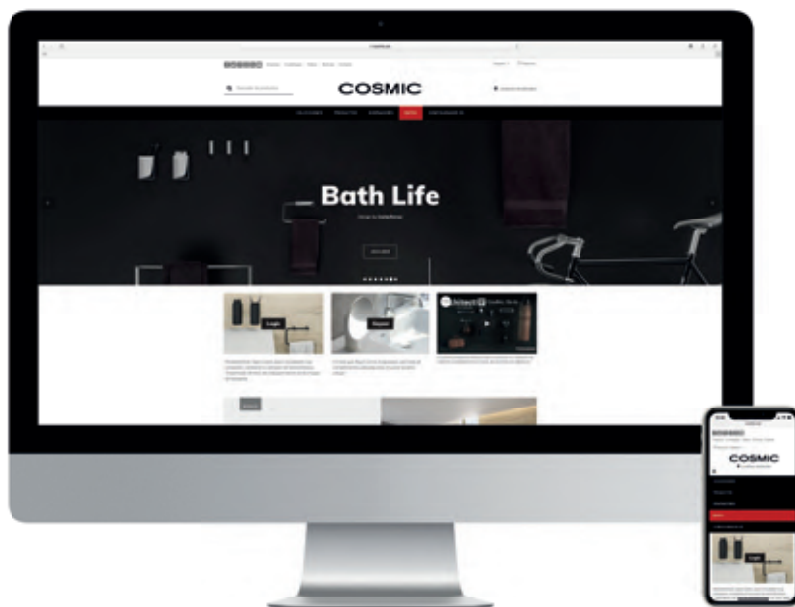

"Soy un HIPERDISEÑADOR. Es llegar a un punto en que la realidad y la ficción se tocan en lo que podríamos considerar el límite de lo productible".

Eugeni Quitllet crea objetos con gran éxito comercial cuyo origen se mueve entre los dibujos y las esculturas y que revelan elegantes siluetas ocultas en el material. Su vocabulario creativo supera la simple relación entre función y estilo, introduciendo nuevos objetos a la escena del diseño contemporáneo, siempre con un entusiasmo inquebrantable.

New icosmic website

Nueva web icosmic

Cosmic launches its new website. The new website provides users with more interactive possibilities thanks to its 3D Configuration section, which can be accessed through the main menu and offers three easy-to-use tools that will help you choose the furniture, shower enclosure or composition of the Modular collection that best suits your bathroom.

In addition to these new features, the new **www.icosmic.com** website has a new modern and responsive design, which adapts to any screen size, be it PC, tablet or mobile phone.

The new website is completely intuitive thanks to a system of banners on the home page that conveniently take the user to other subpages where the brand's information is displayed by collection, product and designer.

Another advantage of the new website is that it allows users to easily locate the brand's distributors through a map that geolocates the different distribution points in relation to Cosmic's source location. Users can also search by post code, or city and enter a proximity radius of 15, 25, 50 or 100 km.

In terms of further user interaction, the website also includes access to the company's social networks, a query form and a subscription form for signing up to the newsletter.

Enter the new www.icosmic.com website and play around with the new configuration tools!

Cosmic estrena nueva web. El nuevo sitio proporciona a los usuarios más posibilidades de interactuar gracias a su apartado de Configurador 3D, al que se accede a través del menú principal y da paso a tres fáciles herramientas que te ayudarán a elegir el mueble, mampara o composición de la colección Modular que mejor se adapte a tu baño.

Además de estas nuevas funcionalidades, la nueva **www.icosmic.com** destaca por tener una estética actual y un diseño responsive, que se adapta a cualquier tamaño de pantalla, ya sea PC, tableta o móvil.

El nuevo sitio es totalmente intuitivo gracias a un sistema de banners en la home que llevan cómodamente al usuario a otras subpáginas donde se presenta la información de la marca ordenada por colecciones, productos y diseñadores.

Otra de las ventajas de la nueva web es la fácil localización de los distribuidores que trabajan con la marca a través de un mapa que geolocaliza los diferentes puntos de distribución con la inicial de Cosmic. También se puede hacer la búsqueda por código postal, o ciudad y poner un radio de cercanía de 15, 25, 50 o 100 Km.

Continuando con la interactividad con el usuario, la web incluye acceso a las redes sociales de la firma, a un formulario de consulta o al de subscripción para recibir la newsletter.

¡Entra a la nueva www.icosmic.com y juega con los nuevos configuradores!

Architect

Design by **Cosmic Studio**

A multitude of pieces come out of architectonic forms that dominate with their resistance. A comprehensive collection of accessories with a timeless and elegant design.

De las formas arquitectónicas surgen multitud de piezas que destacan por su resistencia. Colección completa con un diseño atemporal y elegante.

DUAL SYSTEM / SISTEMA DUAL

Our updated Architect collection now includes a dual installation system for installing bathroom accessories with or without a drill. Smart-fix adhesive, designed exclusively for our firm, means that bathroom accessories can be installed without drilling holes in the wall.

La colección Architect presenta como novedad el sistema de instalación dual, que permite sujetar los accesorios de baño con y sin taladros. Con el adhesivo Smart-fix, elaborado en exclusiva para la firma, se facilita el montaje sin la necesidad de hacer agujeros en la pared.

FEATURES / CARACTERÍSTICAS

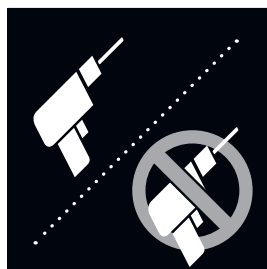

Easy installation: double pitch screw. Hidden attachments. Anti-corrosion.

Fácil instalación: tornillo de doble paso. Fijaciones ocultas. Anticorrosión.

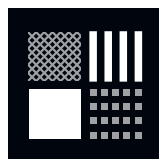

Architect has successfully passed the high demanding tests of long last durability and resistance to extreme uses (static charge or impact testing) to assure long last durability of the product. All products come with 10 years warranty, except for waste bins and stools, which come with 3 years warranty.

Toda la gama **Architect** ha superado con éxito exigentes tests de durabilidad y resistencia a usos extremos (cargas estáticas o test de impacto), para asegurar una larga vida al producto. Todos los artículos tienen 10 años de garantía a excepción de las papeleras y los taburetes que tienen una garantía de 3 años.

Black & White

Design by **Cosmic Studio**

The classic colour contrast transforms the bathroom into a bold atmosphere or blends it in to the other components to create harmonious and diaphanous environments.

El contraste cromático más clásico permite transformar el baño en un ambiente atrevido o bien fundirse con el resto de elementos para convertir los entornos en armónicos y diáfanos.

Black & White

Design by Cosmic Studio

Black & White has successfully passed the high demanding tests of long last durability and resistance to extreme uses (static charge or impact testing) to assure long last durability of the product.

Toda la gama **Black & White** ha superado con éxito exigentes tests de durabilidad y resistencia a usos extremos (cargas estáticas o test de impacto), para asegurar una larga vida al producto.

b-smart accessories are ideal for a practical, simple bathroom. Their design and size is aimed at fulfilling the needs of different users. The choice of material is not a coincidence either. It is possible to manufacture dual colour products with this highly resistant, thermally stable organic compound, giving the collection a cheerful note. The result? Practical containers with covers, available in two sizes, a dispenser, a large glass and a toilet brush. Accessories that can be adapted to any type of lifestyle. No complications.

b-smart

Los complementos **b-smart** son perfectos para un baño práctico y funcional. Su diseño y su capacidad han sido pensados para dar respuesta a los diferentes usuarios. La elección del material tampoco es casual. Se trata de un compuesto orgánico termoestable de gran resistencia que permite fabricar productos bi-color, lo que da un toque divertido a la colección. El resultado son unos prácticos contenedores con tapa, disponibles en dos medidas, un dosificador, un vaso de grandes dimensiones y un escobillero. Unos complementos que se pueden adaptar a cualquier tipo de vida. Sin complicaciones.

Diabolo is a fresh and fun proposal, born from the ingenious combination of just two pieces and a rope. The new Bath+ collection takes its inspiration from ship moorings and moves away from more traditional bathroom proposals.

A towel bar, a toilet paper holder and a hook are the pieces that make up the range, which can combine two colours based on various possibilities: white, black or red for the rope and white, black or chrome for the pieces. **Diabolo**, with its dual system, is easy to install: it can be attached to the wall with 3M adhesive tape or secured with conventional screws. In both cases, the attachment fixing is completely secure.

diabolo

Diabolo es una propuesta fresca y divertida, que nace de la ingeniosa combinación de tan sólo dos piezas y una cuerda. La nueva colección de Bath+ se inspira en los amarres de barco y se aleja de las propuestas de baño más tradicionales.

Un toallero, un portarrollos y un colgador son las piezas que componen la gama, que pueden asociar dos colores a partir de varias posibilidades: blanco, negro o rojo para la cuerda y blanco, negro o cromo para las piezas. **Diabolo** es fácil de instalar con su sistema dual: o se engancha en la pared con la cinta adhesiva 3M o se puede sujetar con los tornillos habituales. En ambos casos, la fijación está totalmente garantizada.

PRODUCT DESIGNER **BATH+**

It flees from the idea of traditional bath accessories. Who is it aimed at?

diabolo es una propuesta muy original. Huye de la idea de los accesorios de baño tradicionales. ¿A quién va dirigida?

Our philosophy is to create objects that are iconic and different, but always giving priority to functionality. Diabolo is designed for people who are a bit nonconformist, who seek unique products, but without ornamentation and very functional.

Nuestra filosofía es crear objetos icónicos, diferentes, pero siempre primando la funcionalidad. Diabolo está pensada para gente algo inconformista que busca productos únicos, pero sin ornamentos, muy funcionales.

1 How is it possible that a collection can be born based on just two pieces?

¿Cómo puede ser que a partir de solo dos piezas pueda nacer una colección?

The concept is very simple, it is inspired by ship moorings and has a geometric and essential aesthetic. The mechanical principle and visual style can be easily applied to several different functions.

El concepto es muy simple, se inspira en los amarres de barco, tiene una estética geométrica y esencial. Ese principio mecánico y estilo visual pueden aplicarse sencillamente a varias funciones distintas.

3 How can a functional collection be created from an initial concept that is, in principle, very simple?

¿Cómo de un concepto inicial, en principio simple, se puede crear una colección funcional?

I believe that at times the simpler the idea, the more flexible its application.

Creo que a veces cuanto más sencilla es la idea, más flexible resulta su aplicación.

2 diabolo is a very original proposal.

4 ¿How is the collection installed?

¿Cómo se instala la colección?

It is a dual collection. It can be installed by traditional screws or using 3M high adhesion adhesive, which allows quick and clean installation.

Es una colección dual. Se puede instalar mediante tornillería tradicional o utilizando un adhesivo de alta adherencia de 3M, lo cual permite una instalación rápida y limpia.

5 What is more important, the design or the ability to personalize lengths of space?

¿Qué es más importante, su diseño o su capacidad de personalizar las longitudes del espacio?

Bathroom products are usually rigid, we are intrigued by the idea of a flexible product that can be tied without a fixed position, as if it were a clothing accessory. This allows a very different style, customization in both its daily use and its installation.

Los productos para baño normalmente son rígidos, nos intriga la idea de un producto flexible que se puede atar sin una posición fija, como si fuera casi un accesorio de ropa. Eso permite un estilo muy diferente, y una personalización tanto en su uso diario como en su instalación.

6 In what kinds of bathrooms do you picture diablo?

¿En qué tipo de cuartos de baño te imaginas **diablo**?

We see it possibly for small bathrooms, with essential contemporary-style products.

Lo imaginamos en cuartos de baño posiblemente de dimensiones reducidas, con productos esenciales de estilo contemporáneo.

1 What is duo? ¿Qué es duo?

Duo is the first collection of bathroom accessories from Bath+ which are installed without any need to drill or make holes. Nowadays, people move house many times, many decide to renovate or update their rooms or simply to give the rooms some order to make them more functional. These new necessities require products on the market which are easy to install, without complications, and affordable for all budgets. We decided that there was a real need for which we could produce a design as a differential value. With Duo we have managed to create a collection of adhesive accessories which are suitably functional and which, unlike others on the market, have as meticulous a design as you would find in any other collection which requires drilling.

Duo es la primera colección de accesorios de baño de Bath+ que se instala sin necesidad de taladrar ni hacer agujeros. Hoy las personas cambian su lugar de vivienda en numerosas ocasiones, muchas deciden renovar o actualizar sus espacios o simplemente ordenar las estancias para que resulten más funcionales. Estas nuevas necesidades requieren de productos en el mercado que sean fáciles de instalar, sin complicaciones, y asequibles a todos los bolsillos. Hemos pensado que había una necesidad real a la que además podíamos aportar el diseño como valor diferencial. Con Duo se ha conseguido crear una colección de accesorios adhesivos que cumple con su funcionalidad y, a diferencia de otras en el mercado, tiene un diseño cuidado como cualquier otra colección de accesorios que requiere taladrar.

2 How are duo accessories installed? ¿Cómo se instalan los accesorios duo?

All of the pieces in the collection (hangers, soap dishes, dispensers, glasses, towel rails, toilet roll holders, toilet brushes and containers) can be easily, comfortably and cleanly adhered so that anyone can install them.

Todas las piezas de la colección (colgadores, jaboneras, dosificadores, vasos, toalleros, portapapeles, escobilleros y containers) se pegan de una forma muy sencilla, cómoda y limpia para que cualquier persona lo pueda colocar.

3 Are the adhesive accessories resistant? ¿Los accesorios adhesivos son resistentes?

The Duo accessories have undergone strict validation tests which have been carried out in our quality laboratory, exceeding a static load of above 5kg. The use of Quick-Fix adhesives in our accessories enables us to offer the very highest guarantee of bonding, to ensure resistance to moisture and high temperatures as well as cleaning products and solvents.

Los accesorios Duo se han sometido a las estrictas pruebas de validación realizadas en nuestro laboratorio de calidad superando una carga estática de más de 5kg. El uso de adhesivo Quick-Fix en nuestros accesorios nos permite ofrecer la máxima garantía de fijación, asegurar su resistencia a la humedad y altas temperaturas, así como a los productos de limpieza y disolventes.

4 What does the duo collection offer a bathroom?

¿Qué aporta la colección duo a un baño?

This adhesive collection has been designed to make maximum use of walls and free up areas of the bathroom. It is ideal for small spaces, but also for areas which need to be well-ordered. With this adhesion system we can install as many accessories as we want, in the place we like best: on the wall, behind a door or partition or on the side of a cabinet. All of the pieces can be purchased with round trims in the more traditional line, and square trims for more modern environments.

Esta colección adhesiva ha sido pensada para aprovechar al máximo las paredes y liberar zonas del baño. Es ideal para espacios reducidos pero también para aquellos que necesitan estar ordenados. Con este sistema de adhesivo, podemos colocar tantos accesorios como queramos, en el lugar que más nos guste: en la pared, detrás de una puerta, una mampara o en el lateral de un armario. Todas las piezas se pueden encontrar con embellecedores redondos, de línea más clásica, y cuadrados, para ambientes más modernos.

5 Who are your target customers?

¿A qué público va dirigido?

Duo has very diverse customers because the pieces are general-purpose; from people who move a lot to large families, young people, single people, the elderly...in short, everyone who wants functional designs which are easy to install and affordable.

Duo tiene un público muy diverso porque las piezas son universales, desde personas nómadas, familias numerosas, jóvenes, singles, gente mayor... En definitiva, todos los que quieren diseños funcionales, fáciles de instalar y asequibles.

line is an essential idea, a simple ribbon, a taut gesture that swivels and becomes a functional object. An idea that has been maintained until achieving a collection of accessories designed for today's bathroom.

The new Bath+ collection offers a modern aesthetic, a versatile proposal that fits in well with neutral decor, as well as more informal environments.

Line is an option that seeks convenient installation. It can be attached by means of conventional screws or Quick-Fix adhesive tape. Both options are effective.

1 What is the line concept based on? ¿De qué concepto parte **line**?

It is easy to explain Line, in fact its formal resolution communicates the concept accurately. Line is an essential idea, a simple ribbon, a taut gesture that swivels and becomes a functional object. The challenge throughout the collection has been to keep the idea clean up to the final product, without adding elements that distract and compete with the main concept.

Explicar Line es fácil, de hecho, su resolución formal comunica de forma precisa el concepto. Line es una idea esencial, una simple cinta, un gesto tenso que gira y se convierte en un objeto funcional. El reto en toda la colección ha sido mantener la idea limpia hasta el producto final, sin añadir elementos que distraigan y compitan con el concepto principal.

2 Some pieces combine chrome finish with black plastic.

What effect do you want to achieve?

Algunas piezas combinan el acabado cromado con el plástico negro. ¿Qué efecto se quiere conseguir?

The relationship between plastic and metal is not only an aesthetic decision, fortunately plastic is now accepted in the materials sector codes, although commercially there are still some reservations and an effort is made to hide it, minimizing its presence.

We think it is necessary to move the debate on the perception of materials with respect to the product positioning codes. Plastic today does not mean a low-cost product, for us it synonymous with intelligence because we can integrate diverse solutions in a single component. In the case of the Line collection, it provides an accurate sense of a fit between components, a precise relationship between metal and plastic that conveys a high perception of quality, that is the trick, to know how to bring out the best of each material and manage its codes.

La relación entre el plástico y el metal no es una decisión únicamente estética, afortunadamente el plástico se admite ya en los códigos de materiales del sector, comercialmente todavía hay algunas reservas y se busca esconderlo, minimizar su presencia.

Pensamos que es necesario desplazar el debate de la percepción de los materiales respecto a los códigos de posicionamiento de un producto, decir plástico hoy no es sinónimo de producto de bajo coste, para nosotros utilizarlo es sinónimo de inteligencia porque podemos en un único componente integrar diversas soluciones, en el caso de la colección Line nos aporta un sentido de ajuste entre componentes, una relación precisa, entre el metal y el plástico que transmite una percepción de calidad alta, ese es el truco, saber sacar lo mejor de cada material y gestionar sus códigos.

3 How are the accessories installed? ¿Cómo se instalan los accesorios?

Line can be installed with traditional screws or an adhesive bond that allows a clean and effective installation.

Line puede instalarse mediante tornillería tradicional o mediante una unión adhesiva que permite una instalación limpia y efectiva.

4 Who is line intended for?

¿A qué público se dirige **line**?

Line is voluntarily neutral, it has not been designed for a specific target group, we assume it fits better in more casual environments, due to the quickness of its resolution, but at the same time the technical aspect, the formal rigour, fits in perfectly with a more classic and timeless profile. We look forward to seeing what our customers do with the product, to see how they integrate it and how it engages with the rest of the furniture.

Line es voluntariamente neutra, no ha sido pensada para un público específico, suponemos que encaja mejor en ambientes más desenfadados por la inmediatez en su resolución, pero a su vez el aspecto técnico, el rigor formal encaja perfectamente con un perfil más clásico y atemporal. Tenemos ganas de ver lo que hacen nuestros clientes con el producto, ver como lo integran y como dialoga con el resto del equipamiento.

5 What sets it apart from the rest of the solutions on the market?

¿En qué se diferencia del resto de soluciones del mercado?

In Line, there is a good balance between quality, design and price that we hope the end user will appreciate. All of the pieces in the collection are well-balanced and have been designed to offer a complete essential range. At times, an accessory can be a genuine Meccano of pieces, supports, tubes, screws..., in Line we have abandoned that idea, everything is more immediate and honest.

En Line hay un balance muy bueno entre calidades, diseño y precio que confiamos que el usuario final valore, todas las piezas de la colección están muy equilibradas, han sido pensadas para ofrecer una gama esencial completa, a veces un accesorio puede ser un verdadero mecano de piezas, soportes, tubos, tornillos..., en line hemos abandonado esa idea, todo es más inmediato y honesto.

PRODUCT DESIGNER **BATH+**

1

What is stick?

¿Qué es **stick**?

It is a collection of bathroom accessories that seeks the purity of lines. The pieces are held up by flanges that stick to flat surfaces using adhesive tape. A proposal that is the antithesis of baroque, seeking a basic line with some differentiating detail.

Es una colección de accesorios para el baño que busca la pureza de las líneas. Las piezas se sustentan en unos embellecedores que se enganchan con cinta adhesiva a superficies planas. Es una propuesta que es la antítesis al barroco y que busca la línea básica con algún detalle diferenciador.

2

Perhaps the most differentiating detail is the shape of the towel ring?

¿Quizá el detalle más diferenciador es la forma del toallero aro, no?

Yes, its design is special due to its asymmetry. Although Stick is a set, I would venture to say that the towel ring is its banner piece. It plays a leading role for being a lopsided square ring.

Sí, su diseño es especial por su asimetría. Aunque Stick es un conjunto, me atrevería a decir que el toallero aro es su pieza estandarte. Tiene un papel protagonista por ser un aro cuadrado desigual.

3

How do you manage to give a sensation of lightness to bathroom accessories?

¿Cómo se consigue dar la sensación de ligereza en unos accesorios para el baño?

With very pure lines and trying to keep weight to a minimum, with some sinuous thicknesses. This means making the material do its job, with just the right volume to achieve visual lightness.

Con líneas muy puras e intentando tener el mínimo peso, con unos gruesos sinuosos. Se trata de que el material haga su función, con el volumen justo para conseguir la ligereza visual.

4

Visual lightness is a current trend?

¿La ligereza visual es una tendencia actual?

We are in a time when everything comes into play, you can find shapes with many curves where there are no sharp edges. But we are also looking back, towards Vintage. Yes, it's true that there is a school of thought that seeks the simplicity of shapes without renouncing design. Although I don't know if we can speak of a trend.

Estamos en un momento en el que todo juega, puedes encontrar formas con muchas curvas, en las que no hay aristas. Pero también estamos mirando atrás, hacia lo Vintage. Sí que es verdad que hay una corriente que busca la sencillez en las formas sin renunciar al diseño. Pero no sé si podemos hablar de tendencia.

5 How are the stick accessories installed?

¿Cómo se instalan los accesorios **stick**?

Their installation is quite simple. It is not necessary to drill holes in the wall, as they attach with Quick-Fix adhesive tape. Choose a flat surface and follow the instruction sheet. There are some pieces that can be hung on the side of the furniture, such as the towel bar.

Su instalación es muy sencilla. No hay que taladrar la pared si no que se engancha con cinta adhesiva Quick-Fix. Hay que elegir una superficie lisa y seguir las instrucciones del fabricante. También hay algunas piezas que se pueden colgar en el lateral del mueble, como el toallero.

6 What target group is this collection aimed at?

¿Para qué público está pensada esta colección?

It is intended for young urbanites who like clean spaces, the purity of shapes and who can then contrast with the colours to give it a different tone, a personality of its own.

Se dirige a gente joven y urbanita, que le gusta los espacios limpios, la pureza de formas y que luego pueden contrastar con los colores para darle un tono distinto, una personalidad propia.

Materials

FLOAT GLASS (Flat shelves and washbasin tops)

Made using standard FLOAT type glass that has undergone no subsequent treatment other than the necessary machining, cutting and polishing. Therefore, it is a naturally fragile material and despite the fact that the most appropriate density has been used in every case, special care should be taken when using it. 100% recyclable.

PRESSED GLASS

(Most of the glasses and soap dishes in our collection)

A very similar material to the FLOAT glass used for the shelves, glasses, and soap dishes, etc. This molten glass is shaped in a mould. These products should be used and cared for in the same way as the shelves and washbasin tops. 100% recyclable.

TEMPERED GLASS

This material is manufactured similarly to FLOAT glass, but also undergoes a thermal processing to increase its resistance. 100% recyclable.

MIRRORS

Sheet of glass covered by layers of silver, copper and, finally, paint. The use of topquality raw materials in conjunction with the correct mirror manufacturing process guarantee maximum protection against stains caused by corrosion.

SYNTHETIC RESIN

Is a technologically advanced and unique compound, made up of high percentage of mineral extenders from nature (ATH derived from bauxite) as well as a small one of high-pureness polyester and acrylic polymers; therefore, it is an inert, hypoallergenic and non-toxic material. 100% recyclable, practically fireproof (class 1), strongly UV-resistant, solid and nonporous, hygienic and healthy, resistant and agreeable to the touch for its velvety and natural.

CRISTALPLANT BIOBASED®

Material made up of 50% natural minerals (aluminium trihydrate -ATH- derived from bauxite) and 50% high-purity polyester bioresins. Plant resins: this is the first ecologically sustainable solid surface, consisting of resins of plant origin and extremely pure natural minerals. It is an inert, hypoallergenic, non-toxic material. It is practically inflammable, certified Class 1 fire resistance. It is highly resistant to ultraviolet rays. It regains its original appearance with just soapy water and a scrubber.

PHENOLIC RESIN

This material is a high pressure laminate (HPL) with a decorative surface. Typically the superficial layer consists of thermo-hardened resin-treated plywood. The special texture and durability of this material makes it very resistant to impact and scratching, and it is completely waterproof. Specially designed for use in places where hygiene is of the utmost importance, this material can be cleaned frequently with active detergents, chemical agents, or organic solvents.

VENEERED WOOD

MDF boards + oak veneer varnished with fine quality materials to prevent yellowing. Oak wood is a material that is very resistant to biological agents (fungus and insects). As this kind of material is natural wood, it may present knots and color variation.

LACQUERED WOOD

This material is made from double-faced MDF plywood. Its high quality varnish provides a bright or matte finish and prevents yellowing. Due to its delicate lacquered surface, we recommend the use of mild cleaning products, avoiding solvents or any abrasive substances.

PVC

Polyvinyl chloride (PVC) is a polyvinyl chloride polymer used to manufacture numerous products and is also applied in making boards, panels, windows, shutters, etc. Its durability, colour stability, watertightness and moisture proof properties make PVC an ideal material for bathroom and kitchen furniture. The material can be cleaned quickly and easily with just soap and water, although its resilience means most cleaning products can also be used.

PLASTIC

We use various technical plastics with different features to meet the manufacturing and aesthetic needs of each product. These include ABS (with or without chrome), PP, PA, PE, PC, PS, etc.

ACRYLIC GLASS

The polymethylmetacrylate (PMMA) is known as one of the “engineering plastics”, and is obtained through the polymerisation of methyl methacrylate. It stands out from other plastics due to the fact that it is impact resistant, weather resistant—as it does not undergo any significant ageing in ten years of outdoor exposure—resistant to UVA rays and scratch resistant. Due to its absolute transparency (it is the most transparent plastic), it is most commonly used in vehicle headlights, optics, medicine or partition panels. For use in architecture and decoration, it is lighter than glass and provides greater resistance to impact, meaning it can be a good substitute in many situations.

STAINLESS STEEL

It is an alloy of iron and carbon. Steel maintains the iron hardness characteristics. This steel has a special chrome treatment against the rust and oxidation. The used alloys are SS201 & SS304.

BRASS OR SIMILAR ALLOYS (glossy chrome and matt chrome)

A copper and zinc alloy—this is one of the non-ferrous metals, the proportion of which varies according to its use. It offers greater malleability than both copper and zinc separately, and it is easily refined which allows for a high level of design customization.

ALUMINIUM

Aluminium alloy. May be presented as solid, extruded and calibrated. Aluminium is an important metal for numerous industries, such as the automotive industry where it is most common. It is generally a soft metal with low melting points.

GLASS-LINED STEEL (VIT-TECH)

Cutting-edge, 100% recyclable, non-porous and hygienic material made of fired pre-enamelled sheet steel. The vitreous enamel withstands corrosion, high temperatures and chemical agents. This durability means it can be used for a wide range of functional applications in bathtubs, shower trays and washbasins, as well as for ovens and coatings. It is an easy to clean material that does not require special cleaning products.

TECKSTONE

Advanced formula composed by natural minerals (calcium carbonate and quartz) mixed with resin. The surface is covered by Gelcoat Premium Maxguard™ film, with plastic fibre and polymer, which provides the needed durability and resistance for an intensive daily use. It is a solid surface with excellent physic-mechanical properties that supplies important design possibilities. Its capacity of moulding allows reproducing forms with a great precision and with less curvature radius. Teckstone is very hard, resistant and compact; being a non porous material and without angles, it is very easy to maintain, the stains can be eliminated without effort and it is easy to clean.

MARBLE

Carrara Marble. Extracted from Italy's Tuscan quarries, each piece of marble is different and each stone has its own unique characteristics. Its white background has distinctive light blue-grey veins running through its surface.

Marquina Marble. Elegant and classic, each piece of marble is different and every stone has its own characteristics. Extracted from the quarries sited in Marquina (Vizcaya), it is characterized by its white veins on the black stone. The less veins it has, more appreciated is.

Brescia Marble. (Brown matt and glossy) from the region of Lombardy (Italy). It is considered as one of the most sumptuous Italian marble.

PORCELAIN

Ceramic product obtained from a sophisticated paste made up of kaolin, feldspar and quartz. Porcelain is treated with a vitrified top finish for surface hardness, colour and sheen. It is non-porous and hygienic, which makes it suitable for use in the bathroom. The vitrified finish means that it can be cleaned with any bathroom-specific product.

FÉNIX®

Soft touch material and high performance: micro-scratch thermal reparability, anti-fingerprint, scratch resistance, high resistance to solvents and low light reflectivity. FÉNIX® products are made of paper (more than 60%) and thermosetting resins (30-40%). They are created through a pressure process in which heat and pressure are applied simultaneously to obtain a homogeneous non-porous product. The core structure is made of paper, impregnated with thermosetting resins. The outer surface is treated with the latest generation acrylic resins, hardened and set using the Electron Beam Curing process. It does not require any special maintenance, just a damp cloth with warm water or mild detergents. To remove the most common stains the surface can be cleaned with just warm water and a non-abrasive cloth. If the residue is old or has hardened, use a magic eraser sponge or a soft cloth to remove it. Always rinse thoroughly to remove detergent with clean, preferably warm water. Tests have shown that the removal of superficial micro-scratches using a "magic sponge" takes place both immediately and after 24 hours.

SOLIDMAT

A solid surface with a high percentage of natural mineral deposits. It stands out for its glossy feel and its durability. It is a fireproof material, compact and non-porous and both hygienic and resistant. Available in solid matt white.

CLEANING INSTRUCTIONS

Clean with a liquid domestic cleaner or with soap suds. Afterwards rinse with clear water and polish with a cloth. Do not use any cleaning agents containing acid or scouring agents. Damage caused by improper treatment is not subject to our guarantee.
