SERVE AS PRIMARY CLIENT CONTACT FOR ALL BACKFLOW-RELATED COMPLIANCE MATTERS, DELIVERING STATUS UPDATES AND REMEDIATION TIMELINES TO BUILDING OWNERS AND PROPERTY MANAGERS

LEAD FIELD ENGINEER | REDOCS | SEPTEMBER 2024 - JANUARY 2026

Documented compliance efforts related to **Local Laws 88, 87, 97, and 126**, focusing on energy efficiency, sustainability, and safety in building operations.

Conducted detailed assessments and ensured adherence to New York City building code requirements for lighting upgrades, energy audits, greenhouse gas reduction targets, and elevator modernization. Assessing Low Pressure Boiler ensuring HPD regulations are met. Assisted in energy audits and retro-commissioning (RCx) processes in accordance with LL87 requirements. Coordinated lighting and sub-metering upgrades to meet LL88 mandates for commercial buildings. Supported sustainability initiatives and energy efficiency projects aimed at achieving LL97 emission-reduction targets. Collaborated with building management teams and third-party vendors to implement energy-saving measures. Performed building surveys using ArcSite, producing detailed architectural design drawings that helped reduce labor costs by tens of thousands of dollars. Contracted by multiple companies including EZ Energy, Energy Plus, Green Light, and Pinnacle Energy to complete Local Law 87, 97, and BSMA projects. Collaborated with building management and contractors to ensure timely reporting and compliance documentation submissions. Utilized Forms App to generate accurate reports and streamline record-keeping processes. Stayed updated on regulatory changes to provide guidance and maintain compliance for multiple properties. Developed a complete Field Engineer procedure from scratch, establishing standardized inspection, documentation, and reporting protocols for improved efficiency and consistency across all projects. Designed an Excel-based tracking system to monitor subcontracted jobs, preventing revenue loss and improving project management efficiency. Created Excel spreadsheets to manage inventory, certifications, and inspection records, streamlining documentation and operational workflows.

STORE MANAGER | NEW WAY DELI | FEBRUARY 2019 – JANUARY 2025

Delivered exceptional customer service, greeting and assisting customers in product selection. Managed store presentation, restocking, and cleanliness. Ensured employee satisfaction through effective task assignment and daily management.

POLICE CADET | NEW YORK POLICE DEPARTMENT | JANUARY 2023- JUNE 2024

Provided critical assistance and support to civilians, handling reports of harassment, vehicle accidents, and other issues. Conducted data entry and maintained accurate records using Excel, contributing to efficient information management.

STORE MANAGER| NEW BLONDIE FOOD CORP | JANUARY 2017 – NOVEMBER 2020

Processed customer orders through the POS system, delivering top-tier service. Managed store inventory, including ordering and restocking items. Assigned and supervised daily tasks for employees to ensure store operations ran smoothly.

IT SUPPORT INTERN| DEPARTMENT EDUCATION | MAY 2016 – MAY 2019

Developed and implemented the Mobile Device Manager (MDM) plan, managing Apple products and laptops.

Reduced product errors by 75% through quality guidelines.
Created and maintained tracking spreadsheets for inventory management.
Electronics Maintenance and Repair
Migration and Clone Drives
Server management and maintenance

Education

**MASTER'S IN MECHANICAL ENGINEERING | CURRENT(AUGUST 2026) | NEW YORK
INSTITUTE OF TECHNOLOGY**

**BACHELOR'S IN MECHANICAL ENGINEERING | NEW YORK CITY COLLEGE OF TECHNOLOGY
ASSOCIATES IN APPLIED SCIENCE | NEW YORK CITY COLLEGE OF TECHNOLOGY**

Skills & Abilities

Customer Service	Teamwork
Monitoring Inventory	Microsoft Word
Leadership	Microsoft Excel
