

Directions to TCT set construction warehouse:

1300 37th St. East will get you close, but please read the directions below.

The TCT warehouse is in the old Tuscaloosa Center for Technology, a former City School System Technical/Trade school.

From Northport, head south on McFarland/Highway 82. Cross the river. Go past University Mall.

At the traffic light just before the Interstate (James Harrison Parkway/37th St. East) turn left. There will be a Mavis Tire store there. Go about a quarter of a mile and the school will be on the left, across from a storage business on the right. Go through the gate on the left side of the school and drive around behind the main building. The door to our warehouse should be open.

Note: Our warehouse is attached to the main building. There is another building farther back on the property that may have a garage door open. That is Not us.

If you need further help, call either me or Johnathan Tubbs.
