Lifestyle Expenses

Let's start accounting for the expenses that support your desired lifestyle.

Lifestyle expenses are how we CHOOSE to live. Everything from apparel to traveling: these expenses are what cause us the most excitement in our lives but can equally cause the most pain to our finances if not properly planned and accounted for. It is important to find a balance in your lifestyle so that you may enjoy the "fun" spending without going into debt.

Examples of what qualifies as a "lifestyle" expense:								
SHOPPING	Travel	RESTAURANTS						
Apparel	Flights	Dining Out						
House Items	Hotels	Dining In						
Hobbies	Dining	Coffee						
Other	Other	Other						
SELF- CARE	Home Services	Subscriptions						
Beauty Services	Housekeeping	KID'S ACTIVITIES						
Beauty Products	Pest Control	PET EXPENSES						
Fitness Membership	Landscaping							
Other	Other							

How do you pay for these expenses?

CREDIT, DEBIT, or MIX OF BOTH?

If on a credit card, do you pay off the new charges each month? or let them continue to rollover creating debt for yourself?
