

TRAINEE FIRE & SECURITY ALARM ENGINEER

Hades Fire Protection is a small but thriving BAFE and NSI Fire and Security company based in Faversham. We are looking to employ a trainee Fire and Security Engineer to support our current team of engineers due to our growing work in the Kent area.

Salary from (DOE): £11.44 / hour (NLW) - £23,796 / year based on 40-hour week

Career level required: Entry Level

Experience required: None

Education required: GCSE / Scottish or equivalent

Job type: Permanent 2-year Trainee Contract (6 months probation) with the possibility of future employment as a Fire & Security Engineer

Job status - Estimated 40 hours / week but part-time possible

Location: Our office is on The Mall in Faversham and travel will be provided from this location to site. Depending on age and experience a company van may be available

Role

This role includes learning how to install and maintain commercial fire detection and security alarm systems in Kent as well as the maintenance of emergency lighting systems. You will be expected to work both in a team with other Fire & Security Engineers and independently when appropriate.

The job requires limited flexible working due to the nature of the industry where fire alarm testing sometimes have to take place out of hours or during weekends.

Training & Benefits

- We will provide H&S (eg ECS H&S test, IPAF, Asbestos) and manufacturer training
- Within an estimated 2-year training schedule the successful candidate will be put forward for their FIA Level 3 Fire Detection & Alarm Qualification & / or NSI Security Training
- Salary review every 6 months
- Estimated earnings after 2 years is approx £27,000 with experienced (4-5 years) engineers earning £30,000+
- Branded clothing, mobile & tools provided
- Auto enrolment pensions scheme
- Overtime available

Skills & Qualifications

A clean driving licence is essential, as is flexibility, a great attitude, an excellent work ethic and the ability to work at heights. An interest in electronics and electrical engineering is an advantage as you will be working on large networked systems.

We aim to be an equal opportunities employer and welcome applications from all sections of the community.

As a BAFE & NSI accredited company, all our employees are required to complete security screening to BS7858 as a condition of employment, which includes DBS and Barring checks.
