

**RINGWOOD MINES/LANDFILL SITE  
CONSTRUCTION UPDATE  
RINGWOOD BOROUGH, NEW JERSEY**

**SEPTEMBER 14, 2023**

**CONSTRUCTION ACTIVITIES TO RESTART IN  
THE O'CONNOR DISPOSAL AREA (OCDA)**

- EPA anticipates that construction activities will restart in the OCDA during the week of September 18, 2023 to complete the soil cap construction.
- EPA expects that construction activities will continue through spring 2024.
- Additional clean fill materials and topsoil will be imported to the OCDA to complete the soil cap.
- Air quality, vibration and settlement monitoring will be conducted during construction to protect the Upper Ringwood community.
- Erosion and sediment controls (silt fencing, hay bales and berms) will be maintained during construction to minimize the potential for runoff of soil to the Park Brook.
- Close-out and maintenance activities may also be conducted in the Cannon Mine Pit Area and the Peters Mine Pit Area.
- EPA will provide periodic status updates to the Upper Ringwood community during construction.
