

CORN PROGRAM

Holzinger
SEED SERVICE

IN FURROW (SEED BOX TREATMENT) OR 2X2

NEXTA SPEEDBOX W/ ETHER

RATE:
1 PAIL PER/50 UNITS
(1 SCOOP PER BAG)

PRICE:
\$2,132 PER PAIL
\$17.62 PER ACRE

Best in class Ionlock Zinc, plus Fe and Mn, improving singulation; paired with nutrient solubilizing microbes to enhance nutrient uptake. Also, contains Terrasym, a biostimulant driving early vigor and robust root growth along with your 80/20 talc graphite blend. With 8 bacteria to enhance nutrient uptake, drive plant vigor, root development & yield potential. Contains Ether, 2 enzymes of mannanase and lipase and active carbon, drastically improving P&K availability and emergence.

REPLACE OLD 80/20 TALC/GRAPHITE & ZINC IN STARTER

NEXTA STAND (PREFER IN-FURROW BUT CAN BE UTILIZED 2X2 AND BRING BENEFICIAL RESULTS)

RATE:
4 OZ. PER ACRE

PRICE:
\$175.00 PER GALLON
\$5.47 PER ACRE

Plant Growth Regulators enhancing germination, uniform emergence and vigorous growth. Nexta Stand is an EPA registered product with 4 essential plant phytohormones (Cytokinin, Gibberellic Acid, Indole-Butyric Acid, and Indole-Acetic acid). Nexta Stand helps plants maintain optimum hormone balance and drive root growth, setting stage for higher yields.

POST HERBICIDE APPLICATION (V3-V7)

AQUADRAFT EXTREME

RATE:
20 OZ. PER ACRE

PRICE:
\$22.00 PER GALLON
\$3.44 PER ACRE

Complete adjuvant w/ AMS, surfactants, drift reducing agents, humectants and antifoaming agent

NEXTA STAND

RATE:
4 OZ. PER ACRE

PRICE:
\$175.00 PER GALLON
\$5.47 PER ACRE

Nexta Stand is a plant growth regulator that is an EPA registered product with 4 essential plant phytohormones (Cytokinin, Gibberellic Acid, Indole-Butyric Acid, and Indole-Acetic acid). Nexta Stand helps restore hormone balance setting stage for higher yields through more rows around, encourage canopy cover, and continue the photosynthesis and transpiration process. Helps minimize stressors-promoting growth instead of just surviving the conditions.

NEXTA SUPPLY (UTRISHA N)

RATE:
5 OZ. PER ACRE

PRICE:
\$33.00 PER POUND
\$10.31 PER ACRE

Nitrogen "back up generator" for instances where Nitrogen is deficient in surrounding soil. Provides season long supplemental Nitrogen that supports plant growth and development while steadily providing nutrients throughout the season without the risk of overfertilization. Placement on low/moderately yielding acre to maximize ROI.

FUNGICIDE APPLICATION

TRUTRACK FUNGICIDE

RATE:
8 OZ. PER ACRE

PRICE:
\$56.00 PER GALLON
\$3.50 PER ACRE

Adjuvant helps optimize droplet adhesion, reducing bounce and increase droplet spreading for improved contact

SULFUR 17

RATE:
1 QT. PER ACRE

PRICE:
\$23.50 PER GALLON
\$5.88 PER ACRE

Specifically formulated for foliar delivery of sulfur. Sulfur is important for chlorophyll, nodulation, enzyme activation and S-containing amino acids.

NEXTA SWOLE

RATE:
1 QT. PER ACRE

PRICE:
\$40.36 PER GALLON
\$10.09 PER ACRE

Nexta Swole increases the rate of sugar transport from leaves to flowers, ears, seeds and pods to increase available sugar, seed size and improve pollen viability and efficiency. Nexta Swole is an EPA-registered plant growth regulator and yield stimulant. It contains the active ingredients of .003% Cytokinin, 8% Boron and .004% Molybdenum.

NEXTA SPARK

RATE:
8 OZ. PER ACRE

PRICE:
\$84.00 PER GALLON
\$5.25 PER ACRE

Nexta Spark is a registered plant growth regulator and yield stimulant limiting yield loss due to cytokinin deficiency. Manages heat and drought stress in corn and vastly help retain kernels.
