

NEXTA™ >> SPARK

NEXTA™ SPARK provides cytokinin which is crucial for vegetative growth, reproductive development, and abiotic stress mitigation. It is the market leader in consistency and performance, limiting yield loss due to cytokinin deficiency. NEXTA SPARK is an EPA registered plant growth regulator and yield stimulant.

PRODUCT FEATURES/BENEFITS

NEXTA SPARK is an EPA-registered plant growth regulator and yield stimulant.

Manages heat stress in all crops.

CORN

- Increases pollen production and fertility
- Increases kernel weight and grain density
- Reduces kernel abortion

SOYBEAN

- Improves branching
- Increases seed size and weight
- Reduces pod loss

WHEAT AND SMALL GRAINS

- Increases grains per head
- Increases stalk strength

COTTON

- Reduces boll loss

ACTIVE INGREDIENTS

Cytokinin (as kinetin) 0.04%

RECOMMENDED FIELD APPLICATIONS

NEXTA SPARK is formulated for the following highlighted applications.

Soil

Foliar

Irrigation

CONTAINER SIZE

2 x 2.5 gallon container
275-gallon mini bulk

This reference guide is not intended as a substitute for the product label for the product(s) referenced herein. Product labels for the above product(s) contain important precautions, directions for use, and product warranty and liability limitations, which must be read before using the product(s). Always read and follow all label direction and precautions for use when using any product alone or in tank-mix combinations. This product is not for sale or use in all states. Contact your state pesticide regulatory agency to determine if a product is registered for sale and use in your state. Conduct a "jar test" using all products in proper proportion in order to establish physical compatibility. Many factors contribute to crop performance and return on investment. The information contained herein is true and accurate to the best of our knowledge and belief, but is presented without guarantee since field conditions and use are beyond our control. Neither the manufacturer nor the seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Corteva Biologicals products are designed to help plants function more efficiently and are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices to help the plant realize its true yield potential. ©2024 Corteva Agriscience. NXSPRKSS (09/24)
