

# NEXTA™ >> STRONG

NEXTA™ STRONG includes formulation from five different divalent metals—all of which are vitally important to plant health and critical plant growth factors that have been closely linked to high yield.

## PRODUCT FEATURES/BENEFITS

- Application flexibility: may be applied in-furrow, soil-applied, or foliar
- Convenient source for 8 important nutrients
- Provides nutritional support for vigorous plant growth
- Research and field-proven positive yield response

## ACTIVE INGREDIENTS

Total nitrogen (N)	2.0%
1.00% nitrate nitrogen	
1.00% other water-soluble nitrogen	
Soluble potash (K <sub>2</sub> O)	3.0%
Boron (B)	0.35%
Cobalt (Co)	0.2%
Copper (Cu)	0.6%
Iron (Fe)	0.4%
Manganese (Mn)	0.4%
Zinc (Zn)	1.0%

## CONTAINER SIZE

2 x 2.5 gallon container  
275-gallon mini bulk

## RECOMMENDED FIELD APPLICATIONS

NEXTA STRONG is formulated for the following highlighted applications.

Soil

Foliar

Irrigation

This reference guide is not intended as a substitute for the product label for the product(s) referenced herein. Product labels for the above product(s) contain important precautions, directions for use, and product warranty and liability limitations, which must be read before using the product(s). Always read and follow all label direction and precautions for use when using any product alone or in tank-mix combinations. This product is not for sale or use in all states. Contact your state pesticide regulatory agency to determine if a product is registered for sale and use in your state. Conduct a "jar test" using all products in proper proportion in order to establish physical compatibility. Many factors contribute to crop performance and return on investment. The information contained herein is true and accurate to the best of our knowledge and belief, but is presented without guarantee since field conditions and use are beyond our control. Neither the manufacturer nor the seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Corteva Biologicals products are designed to help plants function more efficiently and are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices to help the plant realize its true yield potential. ©2024 Corteva Agriscience. NXSTRGSS (09/24)
