

Corporate Offered Executive Information Protection

SERVICE OFFERINGS

PERSONAL INFORMATION PROTECTION

Protection from unwarranted snooping through anonymized web surfing, document encryption, password management, and adaptive security solutions.

PROTECTED COMMUNICATIONS

Make and receive off-the-record (OTR) secure phone calls and video chats, exchange secure texts as well as transfer and store files that are undiscoverable.

SMART HOME NETWORK SECURITY

With the Internet of Things connecting all areas of your life, the systems need to be locked down. This includes: alarms, thermostat, appliances, family computers, or other devices.

PERSONAL THREAT INTELLIGENCE & DEFENSE

Identifies and assesses targeted cyber threats and the actors behind them. Gain insight into ongoing exploits, cyber-spies, and risks to executives, with proactive defense strategies.

INCIDENT RESPONSE AND CLEAN UP

Proactive & reactive forensic response for answers you need. Identifies and/or removes device fingerprinting, discoverable information, cookies, malware/spyware, sensitive documents and history to remove any trace of the event.

SMART PHONE & CONNECTED DEVICE PRIVACY

Safeguard data including private photos, videos and files, and control what information is shared with the connected environment around you online and in proximity.

CYBER REPUTATION MANAGEMENT

Counter existing defamatory comments on social media. Neutralize the false negative information and emphasize the true positive information about you and your family.

INFORMATION SECURITY SOLUTIONS FOR CRITICAL PERSONNEL

What's the Risk?

As an executive or board member, you are an integral part of the success of the organization. Millions are spent on protecting the corporation, and hundreds of thousands are spent on your physical safety and body guards. Yet, who is protecting you and your family's information, digital money & assets and reputation from the cyber threats in play today?

Threats Have Evolved:

What an executive or even their family does electronically can generate a host of issues that criminals, corporate spies, and governments can take advantage of. Therefore it is important to ensure proper safeguards are in place for this new and sophisticated world.

Why Intrepid?

Intrepid Defense draws on experts from military, government, network and device specialists, litigators, and experienced white-hat hackers to bring you the best information security program to protect all aspects of your digital life. Our mission is your safety.

You Need Executive Protection:

Intrepid Defense provides: digital home, device, internet, phone, and reputation protective services to the executives and board for increased security and resilience, thereby reducing harm from cybercrime, cyber terrorism, corporate espionage, reputation issues, as well as more traditional areas of personal and home security.
