

BURN PIT CLOSED UNTIL FURTHER NOTICE

On August 9th illegal dumping of **materials potentially dangerous when burned** were discovered in the burn area designated “forest products only.”

This discovery endangers Mammoth Creek Firefighters as they accomplish the task of igniting the forest litter inside the pit each winter. Until the Fire District can determine the extent of the illegal dumping, the pit will remain closed.

Effective August 10, 2026

M.J. Ensor

M.J. Ensor, Chief

Mammoth Creek Fire District
