Innovation Challenges

New this fall: Innovation Challenges !

Sponsors will have the opportunity to submit challenge briefs that identify specific objectives, areas of interest, or obstacles for our cohort companies.

These “innovation challenges” will be used in the selection process to catalyze relationships between sponsor companies and aligned startups.

⋮
What problem are you working to solve ? Describe causes, consequences, key stakeholder groups, etc. *

Long answer text

Why is this problem important to your organization ? *

Long answer text

What is needed to solve this problem ? What are the current gaps in technology, capacity, etc that must be filled ? *

Long answer text

What does a successful solution for this problem "need to have" ? What are the strategic objectives that must be met ?

Long answer text

How Will This Work?

- What the problem is
- Why this problem is important
- What is needed to solve the problem
- What a "success" looks like for this challenge

Target impact areas include:

- Transportation
- Energy
- Building
- Industry (Manufacturing & Materials)
- Environmental Justice
