September 2019

2020 Horse Protection Society Calendar

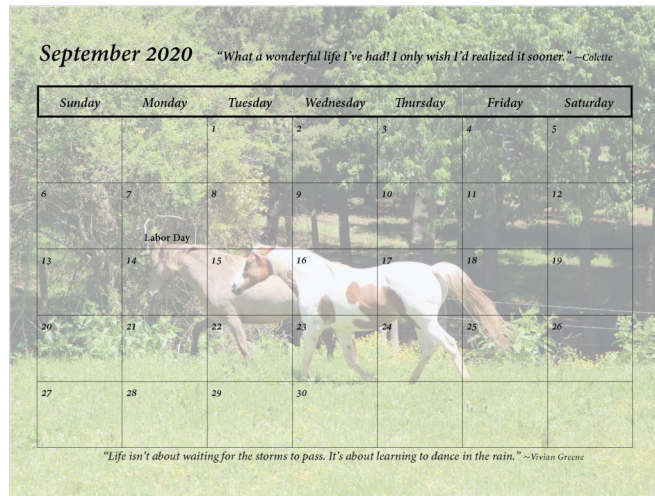

Please help the rescued horses by purchasing a calendar/s. There will be a donation button on our Facebook page and the first page of our website at www.horseprotection.org

Or you can mail a check to HPS for the amount to pay for both calendars and postage.

Horse Protection Society, 2135 Miller Rd, China Grove NC 28023

You will be helping to pay for the increase in costs for the hay that our horses require.

September calendar pages for 2020

Once again we have produced a beautiful calendar for you to enjoy all year long. At times it is inspirational and at times funny to remind you to laugh everyday. This is our *only* fundraiser for the late summer and fall and we need your support to help with the expenses. Each page is 9" high by 12" wide. The overall height of the calendar is 18" high and 12" wide. The calendars make great gifts for your friends and family. By shrinking the calendar just a little, we have been able to keep the postage the same even with the USPS postal cost increase.

1 calendar = \$19.50 + postage of \$3.50 = \$23.00 Plus donation \$ _____.

2 calendars = \$39.00 + postage of \$5.70 = \$44.70 Plus donation \$ _____.

The final proof for the calendar will be going to the printer within the next few days. Normally the printer will have a turnaround of about 10 days. Please order your calendar/s now. You will be helping to support the horses in need. Thank you for caring!

Hot Summer Weather

The temperatures are in the seventies early in the morning. The horses are comfortable having breakfast first thing, and the barn often has a light breeze blowing through. Each horse gets checked over to make sure nothing has taken place overnight that may need a little attention.

The horses then try to empty the cold, fresh water that has been filled in the cleaned water tubs. The old bathtubs on legs are our favorite type, easy to drain and keep clean and Oliver and Turk like drinking out of the tubs also. We keep other low sided bowls filled with water for the chickens, ducks, toads or any other creature that needs a drink. We have a small pond in the front yard that has rocks at the shallow end for the bees and other bugs to get water without drowning.

The next stop is the covered hay feeders to eat all they want of fresh cut hay. (Thank you for helping to keep the hay supplied to the horses. We need all the help we can get.)

The hay feeders provide the needed shade on the scorching hot days. Nap time for most of the babies comes next. Some of the horses will sleep while standing in the hay feeder and others will go to the barns to nap.

It is time to visit the pond field and some will enjoy playing in the pond. Chicopee, Chicklet, and Chuckles are often in first. A good roll in the grass helps to shed the water and the heat from their body.

We are still working to kill off the last of the pigweed and ragwort. Any pigweed is fenced off so the horses can't get to it. The ragwort is dead and just needs to be removed from a few spots.

Come visit the beautiful horses and it will bring joy to your day.

In memory of Donald Fincher of LaGranger, GA.
From the Lanett Panther Reunion

In honor of Nana's Birthday! Love Cody & Caroline

Happy Birthday, Doug. Love Mom

*Dedicated to our Shih-Tzu, Maggie, for return to good health.
By Tom and Diane Brown*

In memory of my beloved dog, Baby Girl. Abused, abandoned & rescued by Bethany Care Home in Spencer in 2008. She brought love to many, then retired to become Queen of the pack to my home. You are loved and missed. By Kim Lane

You can help support our efforts to save horses by providing your email address to us at:
hps@horseprotection.org
 This will save money in printing & postage.
 THANK YOU!

Pigweed

Please look for this plant on your property. Pigweed is toxic to all your animals, dog, cats and all hoof animals. There are several types.

Ragwort

Ragwort is toxic to all animals. After frost kills the plant back it becomes almost sweet tasting. After spraying and killing the plant, it should be removed or burned.
