ISSUES AND COUNSELLING ANALYSIS

Generally, the issues were identified during counselling and also few slots. There were few serious issues and some general issues among most of the participants. The deliberate and severe issue was on **love and relationship**. We had to agree to the fact that this is common due to their age factor, however some of them involved physical relationship as well which is a trouble. The next issue **the lack and excessive sexual awareness** of the students. Sexual awareness which arouses them to try out different unnecessary things. Their age that triggers them to explore and venture on this issue. Meanwhile, those who lack in this field tend to fall into fake friends and strangers. The participants often face **emotional disruption** due to the pressure of academic, social and economic aspects. They feel that they are the only ones who face all these problems and make them to think about this more and more. This leads them to suppress their feelings and causes emotional instability. The setting of the residence of the pupil is not very convenient to them. They have opportunity to mingle and interact with the students who are not in the same age group where this group people forces them to join **gangsterism**.

Actions taken

The first action was advising and creating awareness throughout the camp. We tried our best to include all the elements of the issues mentioned to make them realise that they are not in the right track. We told them how dangerous life could be and the negative consequences of getting into all the issues. We also advised them to not to get involved in any of the dangerous and risky social ills since it may affect their whole life and they may lose self-respect. Then, we also briefed their parents about their daughters' situation in general. We advised parents to keep up a good rapport and maintain a healthy communication so that the girls will not hesitate to share their feelings. We also going to conduct a follow up 2 days camp in the same venue to reinforce the information given and also to boost.
