Tired of Reductions?

By hiring M.R.S. to:

- Audit medical and billing records
- Identify missed diagnosis codes, value drivers, and potential obstacles
- Create a Physician Medical Record Summary
- Create Supplemental CMS 1500's
- Create a Code Tracker
- Input data into Medical Suites software

You will need the following for Medical Billing:

- Patient intake paperwork
- Whole medical record including **ALL** SOAP notes, evaluations, diagnostics, diagnosis sheet etc.
- Any and all medical records including additional testing from other treating providers
- Billing ledger

You will need all of the above and the following for Supplemental CMS 1500's:

- HEP must be documented
- There must be more than 12 diagnosis codes
