### Is there a minimum group size?

Yes. For private events, there is a 10-person minimum.

For public pop-ups or hosted business events, I typically recommend planning for at least 20 participants to make the event worthwhile for both the host and Small Town Beauty.

### Is there a maximum group size?

There is not a strict maximum, but larger groups may require more time, additional setup space, or a slightly adjusted event flow.

For groups over 20, we may structure the Lip Gloss Bar in waves so everyone has enough space and time to enjoy the experience without feeling rushed.

### How long does the Lip Gloss Bar take?

Most private events take about 60 to 90 minutes, depending on the group size.

Public events or pop-ups are usually booked for a longer window, often around 3 hours, so guests can come and go throughout the event.

### Where can the Lip Gloss Bar be hosted?

The Lip Gloss Bar can be hosted at your location. Small Town Beauty brings the supplies and setup to you. Travel availability depends on location and schedule.

- Boutiques and salons
- Bridal showers and bachelorette parties
- Birthday parties
- Markets and community events
- Private homes
- Girls' nights
- Business or team events

### Do I need to provide anything?

The host is typically responsible for providing the event space, tables, chairs, and access to the area before the event for setup.

Small Town Beauty provides the lip gloss supplies, product materials, and guest experience.

### Can guests shop other Small Town Beauty products at the event?

Yes, if requested. I can bring additional Small Town Beauty products for guests to shop during or after the Lip Gloss Bar.

This can include lip glosses, lip oils, lip treatments, blushes, or other available products.

### Is this good for kids?

Yes. The DIY Lip Gloss Bar can be a fun option for kids, teens, and adults. For younger groups, adult supervision is recommended depending on the age of the guests.

## Is the Lip Gloss Bar good for bridal showers or bachelorette parties?

Yes. This is one of my favorite ways to use the Lip Gloss Bar. It gives guests something fun and personal to do, and everyone leaves with a custom beauty product they made themselves.

It also works great as a unique party favor.

## Can the Lip Gloss Bar be customized for my event theme?

The overall Lip Gloss Bar setup stays the same, but each guest gets to personalize their own gloss by choosing their scent, shade, shimmer, and gloss name.

Depending on the event, we can talk through any small details ahead of time, but the main experience is designed to be simple, fun, and ready to go for a variety of events.
