

Granite Harbor Advisors to Sponsor Katy 1895 Football Club

KATY, TEXAS: February 2018 —The Katy 1895 Football Club, a recent addition to the National Premier Soccer League (NPSL), is partnering with Houston-based investment advisory firm Granite Harbor Advisors as the club's title sponsor.

In November 2017, the NPSL announced that the Katy 1895 FC had joined the league as an expansion team competing in Texas' South Region's conference. Soccer has a robust following in Texas and Katy, Texas, as the fastest growing county in the state, promises to be a leading team in the league. The team will be led by a coaching staff with deep experience in developing players to move in to the collegiate and professional ranks.

Granite Harbor Advisors is active in the Katy community, assisting business owners and executives with making informed decisions in the areas of wealth transfer, asset management and retirement planning. They are dedicated to building lasting and meaningful relationships with their clients. Because of this involvement with the community, Tim Smith, a Managing Partner at Granite Harbor Advisors, is excited that the firm will be the club's first title sponsor. "All of us here at Granite are heavily involved in sports activities and exercise, both personally and through our kids. Supporting this exciting new football club is more than just the club—it's supporting the community where we live and work."

About Granite Harbor Advisors

Confidence-based investing is at the core of Granite's philosophy; simply put, every dollar invested has a goal. Whether it is used to buy a new home, pay for college, fund retirement, or leave to the next generation, each dollar their clients choose to invest has a purpose. Granite Harbor Advisors articulates that purpose to create a logical, efficient, evidence-based portfolio, taking the time to educate their clients first. They are proactive about monitoring progress, recommending necessary changes, and keeping clients disciplined to stay on track to achieving their investment goals. This is all done in a cost-effective, tax-efficient manner to give clients the confidence to invest with peace of mind.
