

## Wild Yam Cream For Men

Medical problems associated with reproduction and the prostate gland are on the increase world wide.

Studies indicate that sperm counts in men may be declining as much as 2.1% per year and may have declined over fifty percent since 1938. Surgery to relieve the symptoms of an enlarged prostate has risen to become the second-most common operation among U.S. males. Testicular cancer is on the rise as are libido and impotence problems. Prostate cancer is now the number 2 male cancer. As well as a rise in even breast cancer for men.

Research seems to indicate that pollution of the environment is the only logical cause for this epidemic seen around the world. The pollutants are likely many and varied, but have one thing in common - they disrupt normal hormone balances in Men as well as Women.

History:

The phenomenal success of the Wild Mexican Yam Cream has been documented and validated. Changing the lives and health of score of women and now men. This progesterone cream has been on the market for over 25 years with outstanding reports.

Daily reports have turned into yearly reports of Males who are enjoying benefits from using the Wild Mexican Yam Cream with Progesterone. Many men start using the cream for pain or stiffness in joints and then continue to use to cream as they begin to see other daily benefits. There are reports that men are now "Experiencing Life as it used to be." not only because of the benefits of the elixir for their wives, but for themselves as well.

The General Comments from the Men indicate:

**LESS PAIN, BETTER SLEEP, MORE ENERGY, AN ENHANCED WELL-BEING,  
AND A MORE NORMAL LIBIDO**

Wild Yam Cream has been formulated with natural ingredients to help meet the physical stresses of our modern day life styles. The extract from the wild yam plant has a high concentrate of diosgenin which is reputed to function in the body in a similar manner to natural progesterone, which is a primary hormone in both Men and Women. Therefore, Progesterone is a precursor for all steroid hormones. The balancing of hormones in the body is essential for good health. In addition, this exclusive formulation has not only Wild Yam Extract but also Progesterone as well as other herbal ingredients which may help to increase energy, libido and fertility.

### **Two Dynamic Ingredients:**

**Progesterone:** Progesterone favors the development of T helper cells, boosting immunity. Also increases dopamine release, supplying a good precursor to adrenal hormones - again, for **BOTH SEXES**. A common problem in both men and women is the shortfall of various steps in the pathway of the body's conversion of cholesterol to progesterone, you can see the importance of supplying this vital hormone. **Siberian Ginseng:** Medical literature contains more research on Siberian Ginseng than on most herbs. For males, it has been known to have gonad-stimulating activity improving the health of the prostate gland. Important, because of increasing infertility among men. Siberian Ginseng has been shown to help reproductive capacity. It also lowered cholesterol, protects liver, enhances protein metabolism, and has a general stipulatory.

would need to wait several weeks until the swelling went down before the first operation could be attempted.

Anyone who knows me knows I do not like drugs or pain killers but after 2 nights of no sleep! I finally decided to try The "Miracle Cream". I had heard that it worked for pain and it was natural. So at least, I didn't have to worry about the side effects the prescriptions would have on me.

Years earlier working installing a testing physicality, I received chemical damages to my eyes and lungs. The doctors insisted that I use inhalers. This caused terrible side effects which turned into being on oxygen for awhile. Needless to say, this experience has kept me away from prescription medications.

I took a case of cream home and started using it that very night. In the very beginning I used about 2 oz every two days. That's an ounce a day. I reapplied the cream every time the pain came back. You can see that indeed there are no side effects you can't over use the cream! (It is Not a drug) After more research on the cream. Research shows, this is the only cream that works with your body as an adaptagen. Whatever is not used is removed from the body. Therefore, it does not build up in your system and overload your receptor sites. In fact it removes unwanted toxins from the system as well.

But back to my discovery:

After 3 days of using the cream I made a tremendous discovery. You see, I had also been the victim of anxiety attacks for over three and 1/2 years. These attacks had plagued me, 7 days a week, 24 hours a day. Which left me unable to work a normal 8 hour job and even made it impossible to drive. Now after using massive amounts of cream they were gone.

That was not the end of my story though.

In 3 months, I had full use of my shoulder and arm again. I was re-roofing the house, by myself. So with no operations, no therapy, using the cream I had a full recovery. Plus, I got rid of age spots on my hands and my knees and elbows were healed as well as the panic attacks also known as anxiety was gone.

As I have used the cream over the years I personally have made other discoveries.

While re-roofing the house I ended up with a very bad sunburn. Looking at the mirror I thought, Well, this is one time the cream just can't help. I put it on any way and slept all night.

It helped me get over the pain and sleep so now I used it for relief from the pain. The next morning when I awoke I looked in the mirror and everywhere I had used the cream was healed. The places I did not use the cream were still

red. This was remarkable to me. I was severely burnt and expected to have blistered and be up all night in pain.

Amazed at these situations, I found myself researching the cream in other ways. Actually, it got to be when anything happened to family or friends I would right away say, Did you use the Cream? Noting their experiences. I began talking to customers and gathering testimonials.

People with many forms of arthritis were using the cream daily to keep from getting stiff and sore. More research verified that the cream helps heal the micro tears in the muscles thereby they do not leak the lactic acid. This is what makes you stiff and sore after a good workout or doing hard labor on the job.

Many types of burns were reversed from Sun to Steam to Hot Glue. Research on burns after using the cream. Showed reports that the damaged cells would stop gorging on surrounding fluid and actually put the fluid back into the system, keeping cells from exploding or killing themselves due to the excessive water or swelling.

People who like myself fell or had damaged areas due to accidents used the cream to stop bruising and swelling. Additional research shows that after an accident when applying the cream right away. Cell walls started the natural healing process and did not allow the blood to leak out into the surrounding tissues as much as when you have not used the cream.

If the blood has already seeped into the tissues you will have a bruise and without cream you may find that it takes longer to heal. The same with strains, sprains and stress. Researchers found by using the cream asap after an injury to stop the damage and reversed the damage process for quicker healing. We found it seemed to help calm the victim especially in cases of injury with children.

The healing powers of the body are amazing in itself. even people who have had pain and injury years earlier may get back their life, just like me.

In fact when applied and reapplied every 15 minutes, directly to a goose egg on the head of a child, we have witnessed bruising and swelling stopped and reversed in as little as 2 hours. Not only did it relieve the pain in children but also has a very calming effect.

I started using the cream for any type of pain. People have used it for everything from hives to headaches (even migraines or chemical headaches) to hemorrhoids, etc.

In research the Key seems to be using enough quickly to get the healing results you need and want. I myself have suffered with polio since childhood which involved pain in legs and feet resulting in neuropathy (pain in feet).

As I have told many others, It can't help you if you don't get it out of the

jar.

We have found that people reported getting off of drugs like prosaic by applying the cream in the same way I used it for my own anxiety. I now know that anxiety is something I would have had to live with without the use of the cream. Even now, as long as I use 4 oz a month my anxiety attacks are kept away. Something the doctors don't tell you is the side effects from prescriptions can last a life time. My own personal usage of the cream goes up with Stress. So I use the cream according to my daily life and the stress level. The more stress the more cream. But with normal usage my life is not only bearable but quite beautiful. Life should be Beautiful.

By the way; My age spots and also thinning skin on the back of my hands started going away. Many people bleed with even a small bump to the hands where skin is thin. It turns out that research suggests that the cream supports the long protein strands. they actually rebuilds themselves. This is known as Collegians. The Miracle cream works great as a night time cream for the face. In fact this was one of the original uses for the product. I've even had women call and say after using the cream for several years they look like they had a face lift. or at least the wrinkles are gone to the point they are no longer noticeable.

There has been much written about fibroids, cysts and tumors.

My second to the youngest daughter was 19 and had a large cysts the size of my fist. When examined by the doctor he said there was nothing that could be done. An operation would be needed, that it would make her incapable of child bearing. He scheduled the operation for 6 weeks. During this time I suggested that she start using the cream. We had had Miracles before and I felt it was worth a shot. She used a jar a week for 6 weeks. Now I am hear to tell you this is a lot of cream. She was using it like body lotion and even used it vaginally. We took her to the hospital at the appointed date and in examining her found that the operation was not needed. The tumor was gone. She now has two of my beautiful granddaughters. Once again research concluded that indeed in using the cream the body is able to eliminate xenoestrogens (bad fake estrogen's) from the body and put back phyto-estrogens ( good plant estrogen's) without the drugs and side effects people expect.

By the way men are estrogen dominate as well as women. The most common source for xenoestrogens are found in plastic. In today society you just are not going to get away from the bad fake estrogens. Nice for me to know that the cream helps the body scrubs off receptor sites picking up and removing xenoestrogens on a daily base.

So what about Hemorrhoids? Research shows that the cream has

properties that help make the blood cells slip by themselves. Most hemorrhoids are caused when blood clots form in the little blood vessels in the colon. Thus they become inflamed. The cream obviously helps the blood flow and heal the damaged areas. Side Note: Works great on soreness from diarrhea also. I personally have found this when traveling.

Those who travel especially by air should be aware that in traveling for long periods of time, the legs can cramp and even get blood clots, this is called thrombosis. The Miracle cream is a great traveling companion. I have used the cream for travel for years with great relief and have learned the improved comfort level is unbelievable and no where else can we get this help and relief.

Those who want to age gracefully know by using the cream you can beat time. Dr. Atkins stated that this was the World's Best Wrinkle cream. The wrinkles actually go away, not just being covered up or hidden for a while.

We quit selling the Miracle cream at HNS years ago.

Never the less I've personally researched and used the cream myself for years . Like many customers. I will never be without the Cream. It's the only cream we use. Whether it be for pain, injury, face, hand lotion or burns. Why buy anything else.

The Miracle cream is available and in the only original formula still the best of all creams on the market to date.

The only original formula left on the market is this cream.

All original formulas were changed, lost or just not produced.

The formulator has retired at the age of 91.

If you desire the original cream that really works I suggest the only original "Miracle Cream." This is what I personally use.

It is absolutely the best and as of 15 years ago the only stable working formula.
