More

THAN ONE INGREDIENT

IT SOMETIMES TAKE A MIRACLE CREAM

For the whole Family

I personally have used The Miracle cream for bumps and bruises on children. For Burns and Sunburns. For aches and pains. For accidents and injuries in work and play. For depression and anxiety. For Hot Flashes and Night Sweats. It makes a wonderful Night Cream as well!

✕ Nature works with more than one ingredient ✕

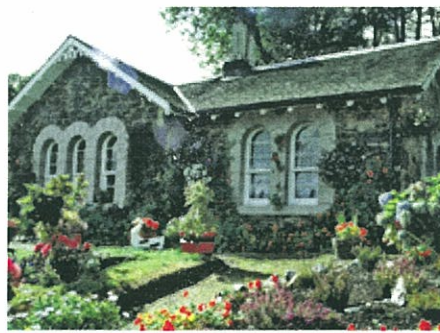

and so *Does the Original Miracle Cream.* The added strength of these necessary nutrients, herbs and oils are supported through a cream known by many as an adaptagen

OFF LABEL USES

Over the years, we along with our customers, have found many OFF LABEL uses for the Miracle Cream. We personally keep a jar at home, at the office, in the car , RV and even the boat. So in an effort to provide you with the newest information we are

sending this list from our Home to your Home. We know you will also find many uses for this amazing product. As you do we would invite you to share your

own experiences. We find that our best information comes from our customers as we share neighbor to neighbor.

Here are some of the uses:

1. If you have an area that is **painful, stiff or sore**, use the cream directly on these areas to get relief. You may apply the cream every 15 minutes lightly until the pain is gone!

2. If you **fall down or bump yourself**, get the cream on the area or as close to the area as possible right away. We have found that it will normally help to **stop the swelling and bruising**. When the cream is applied to a damaged area, re-

search indicates that the body heals the breaks in the little veins and capillaries, causing them not to leak. Blood leaking into the tissues is what causes bruising. So it is important to **put the cream on right away** after injury.

3. If you are going to be outside The Miracle Cream makes a **wonderful Sun Screen**. If you forget to apply before going outside and **you get too much sun**, clean the skin and use the cream on all red areas.

Normally the **pain will begin to subside**. Then in most cases instead of peeling the skin turns into a tan in a few days.

4. Likewise, **if you burn yourself** slightly, even with steam, you may find that the cream works great on relieving the pain. Research shows that the **natural cortisone** promoted by this cream helps to relieve the pain and swelling. Thus the cells stop gorging and retaining body fluid, and skin tissue is left to rebuild and help heal the area.

5. We have seen and heard of wonderful test results coming from our customers about **increased bone density**. They have reported great test results **even in case of severe Osteoporosis**. Remember it is never too late to protect your bones. In fact we have people whoa are 102 years old using the Miracle Cream. These cases support all the research evidence which has been gathered for well over 65 years.

Dr, Betty Kamen has always recommended that anyone with any type of bone loss should remain on two jars of cream each month.

6. We have found that the **painful symptoms of arthritis, shingles even fibromyalgia** are **relieved and with regular use** the pain goes away and stays away. Research indicates that the body will turn progesterone into small amounts of **natural cortisone**. Research also indicates that the cortisone the body makes is received differently by the body than the cortisone made by the prescription medication. Research also shows that the **prescription cortisone promotes Osteoporosis**, a dangerous side effect from the prescription medications. Natural cortisone does not promote Osteoporosis. In fact evidence shows that **this cream helps to promote healthy strong bones**.

7. In some reported cases **customers** who are on medication for problems such as **thyroid** find that through testing by their own doctors they are able to lower the dosage or even

get off of the medication altogether. We have found that **when hormones are in balance, the body is able to function better** and will start to heal and repair some problem areas.

8. Many customers have told us of **no more hot flashes, no more night sweats**. Vitamin E works well with the cream to help stop Hot Flashes. **Call me at 1-800-339-6515 if you have any questions** about Hot Flashes.

9. Younger and as well as Older Adults have said their **Mood Swings are Gone**. We have even been able to help those on **depression medications** as well as those who suffer with **anxiety attacks**.

10. Here one you might not think of, *Bug Bites and Itching*, even when you wake up at night scratching, These symptoms may be **relieved by applying this cream** generously. Customers have found relief in applying the cream directly on the area and then repeating as needed.

11. **People who work out or play sports**, even young boys and girls in school, have **used the cream before and after**

working out and have found less or **no pain in the joints and muscles**. Put the cream on before and after activity which would normally make you sore. Research has shown that the body uses the **cream to help heal the little micro tears** in the muscles, thus stopping the lactic acid from leaking into the surrounding tissue. This is what causes most of the soreness.

12. With the **stress of everyday life** many people have reported **anxiety gone and clearer thinking** on a daily base. I have found that when I am in a stressful situation, I increase the amount of cream i am using for a week or so until my life evens out. Then I go back to my regular usage. I have found that this really helps me through the difficult times. Research indicates that **when serotonin levels drop, it causes Anxiety** due to the brain chemicals becoming unbalanced. This includes Nor Epinephrine, Dopamine and Asterlake. These are all chemicals that affect the limbic system of the brain. Which is the seat of our emotions.

13. Many customers report that **libido has returned** and they are now **enjoying a physical relationship**. I even had a n old woman who married a man 20 years younger and worried about their relationship. She states, Life is Great with my Miracle!

14. We have had men and women report that they have **thicker, more youthful hair**. One woman stated that her Dentist noticed her thicker hair, of all the people to notice. A man who is a truck driver out of florida says he saw a difference in his hair and **started rubbing the Miracle Cream right into his scalp at night**. On the other hand, **woman who have facial hair** have seen it over several months turn white and **completely fall off** the face.

15. **Headaches**, whether they be migraines or the occasional headaches from everyday stress. Customers have found relief by **rubbing** the Miracle Cream along the **back of the neck, across the forehead** and on **the temples**. Repeating this every 15 minutes as often as necessary. Even headaches from chemicals. Such as paint.

16. The Miracle Cream also works well as a **daily facial moisturizer**. Many customers report smoother skin, less wrinkles and a youthful glow. This is one of the main reasons that the cream was first formulated.

With new information coming in about the benefits and off label uses of this cream. Is it any wonder why it is called the **MIRACLE CREAM! that the cassette from Dr. Betty Kamen is called, "Every Woman's Miracle."**

We are here to help you. If we do not have an answer, I will flat tell you , I don't know. But, **we do have the resources** to find answers and to find doctors and clinics that have experience and years of observation into these areas and problems.

Please fell free to call me at 1-800-339-6515 with any questions.

We have been at the same location for 30 years and have **expansion in process** to carry use through the next 30 years or even longer.

Healthy Woman promoting Healthy Families!
