INSULATED GLASS UNIT(IGU) / DOUBLE GLASS

IGUs are often manufactured on a made to order basis on factory production lines, but standard units are also available. The width and height dimensions, the thickness of the glass panes and the type of glass for each pane as well as the overall thickness of the unit must be supplied to the manufacturer. On the assembly line, spacers of specific thicknesses are cut and assembled into the required overall width and height dimensions and filled with desiccant. On a parallel line, glass panes are cut to size and washed to be optically clear.

FROSTED GLASS

Application: windows, doors, shower doors, furniture partition. Interior only.

Opaceness: Light, medium, heavy.
