

CAPABILITY STATEMENT

NO BOUNDS

Mineral Exploration Consultants

ABOUT US

Our Core Values

Authenticity Transparency Innovation Empathy Exploration

No Bounds was born in 2013, from the realisation that Minerals Exploration is more than just good people, big minds, huge equipment and bags of dirt.

We know that to offer the Minerals industry innovative and affordable exploration solutions, growing a company culture we thrive in is paramount.

No Bounds prides itself on building cohesive teams in a manner that champions creativity, autonomy and transparency, so we have the best minds in the field, backed by the 20 year experience and support of the Lead Geologist, Kim Boundy.

The Lead Geologist has expertise in all stages of the exploration/mining life cycle - from early stage exploration through to resource development and plant commissioning.

No Bounds prides itself on engaging with and empowering local communities, and forging long-lasting, meaningful relationships.

The flat organisational structure of No Bounds means the Lead Geologist oversees the project from start to finish, yet allows the team on the ground to take ownership of the project and get the work done.

No Bounds is a Multi-Commodity, Multi-Disciplinary, Globally Experienced Consultancy!

CONTRACTING SERVICES

No Bounds has a vast pool of Geoscience professionals in our network.

The team that will work on your project is hand picked and vetted by the Lead Geologist, not a HR department.

Our team has access to equipment that is fit for purpose and comprehensively insured. They operate under a robust SMS, and thanks to a strong company culture of support, trust and autonomy, they have the skills to get the job done, in a safe and timely manner.

Contracting services provided by No Bounds include:

- Project Managers
- Exploration Geologists
- Mine / Resource Geologists
- Logistical Managers
- Field Technicians
- Graduate Geologists

EXPLORING IS WHAT WE DO BEST

The Lead Geologist is a passionate explorer. She is currently completing her MEcon Geol degree with CODES at UTAS, and is also a member of SEG, an accredited RPGeo with AIG and an active member of the global geoscience community.

No Bounds specialises in exploring remote and challenging locations, whether it be vehicle based reconnaissance work, helicopter based mapping, exploring new frontiers in a dug-out canoe or setting up a fly camp in the jungle. No Bounds will get results and have fun doing it!

The No Bounds team utilises innovative geophysical and geochemical exploration techniques, is well trained in ore deposits models, and well-equipped and well-informed to hit the ground running.

CONSULTING SERVICES

No Bounds provides tailor-made consulting services, for the exploration and development of mineral resources.

Our consulting services include:

- Exploration programs in greenfields and brownfields terrains.
- Data compilations and reviews, project and target generation.
- Drill program planning, budgeting, supervision, sampling and logistics.
- Tenement Management and Acquisition
- Landholder Negotiations
- Independent Evaluations and Due Diligence Reports
- Upskilling / Training for Field Crews
- Forming a Healthy Team Culture
- QA/QC Audits
- Resource Estimation & Modelling
- Mapping
- Camp Construction / Procurement
- Database Construction/Data Storage Solutions
- Construction of Fully Rugged Tablets

TO WHOM IT MAY CONCERN

**LETTER OF COMMENDATION
NO BOUNDS MINERAL EXPLORATION CONSULTANTS**

Kim Boundy, proprietor of No Bounds, provided field services to Eclipse Metals in late 2017 and early 2018 to plan, supervise and record results from our diamond drilling program on the Eclipse manganese prospects in SE Queensland.

There followed several months of work with Kim collating all data derived from this program and preparing comprehensive reports based on results. Kim also developed innovative use of the geochemical and geophysical data to plan future exploration. Her use of advanced programs to manage data is well developed.

Kim also contributed significantly to the Eclipse Metals application for Collaborative Exploration Funding from the Queensland Geological Survey.

We would not hesitate to seek the engagement of No Bounds and Kim Boundy, to organize, run and report on future mineral exploration programs.

FRMIT, FAusIMM
Non-Executive Director (Technical)

Eclipse Metals Ltd is an Australian exploration company focused on exploring the Northern Territory and Queensland for multi commodity mineralisation. The company has an impressive portfolio of assets prospective for gold, manganese, base metals and uranium mineralisation. The Company's mission is to increase Shareholder wealth through capital growth and ultimately, dividends. Eclipse plans to achieve this goal by exploring for and developing viable mineral deposits to generate mining or joint venture income.
