

The PEMF Reach

The pulse can reach several inches into the body, penetrating muscles, tendons, ligaments, and bone.

Optimal Health

MagnaWave is a safe and effective, drug-free alternative to keep your horse in optimal health.

Our Attachments

Our PEMF attachments accommodate to every part of the body regardless of the animal's size.

Improve Your Horse's Circulation with PEMF Technology

Blood circulation is an important part of the body's overall function and health. The heart pumps blood through blood vessels within the circulatory system.

Separation of blood cells increases the available surface area, which allows cells to pick up more oxygen and release more energy.
