

MADE IN PARIS *kentucky*

who we are

Made in Paris is a Collective of Makers rooted in our region's past and sharing the creative spirit of today's Kentucky. Specifically, it is a network of businesses involved in the creation and/or sale of "something," whether that be art, crafts, food, or drink.

A quick drive from Lexington - and the heartbeat of Bourbon County - Downtown Paris is the kind of place you want to spend your day. Or the whole weekend!

our shared values

- **REGIONAL PRIDE:** Bourbon County is special. Locals know it and visitors invite us to teach them about our unique blend of friendliness, hardworking nature, down-to-earth values, and love for our roots.
- **APPRECIATION FOR CREATIVITY:** We celebrate the diversity of style, self-expression, and media that we each contribute.
- **SMALL IS GOOD:** As microbusinesses, we are nimble, highly skilled at our specialties, and provide quality goods by letting each contribute their personal trades to the collective whole.
- **COLLABORATION:** When we help our neighbors succeed, it creates a better community for all.
