

What Amount of Oxygen Absorber Should I Use?

CC stands for cubic centimeter (cm³). It's a unit of measurement that is equal to milliliters (ml). For example, 10 cc = 10 ml. So, 200 cc oxygen absorbers will absorb 200 cm³ of oxygen.

	Oxygen Absorber for	Oxygen Absorber for
Bag Size	Fine Grains (sugar, flour, etc.)	Pasta and Thicker, less Dense Foods
6" x 6"	20 CC	50 CC
8" x 8"	50 CC	100 CC
10" x 14"	100 CC	200 CC
10" x 16"	150 CC	300 CC
16" x 18"	500 CC	1000 CC
18" x 28"	750 CC	1500 CC
20" x 24"	750 CC	1500 CC
20" x 30"	1000 CC	2000 CC
