Halotherapy

We invite you to relax and recharge in our nature inspired salt cave located right here in Columbia, SC. With tons of pure pink Himalayan salt, we have naturally recreated the microclimate of a natural salt mine. This is a relatively new concept for a spa in the United States. Halotherapy is a method used to help cleanse and detox the lungs as well as invigorate the entire body with increased lung capacity and oxygen intake. Healthy lungs and a clean respiratory system are essential for vitality, energy, and longevity. The health benefits can be extraordinary for some with allergies and sinus inflammation.

Infrared Saunas

An infrared sauna is a type of sauna that uses light to create heat. This type of sauna is sometimes called a far-infrared sauna—"far" describes where the infrared waves fall on the light spectrum. A traditional sauna uses heat to warm the air, which in turn warms your body.

Infrared heat is completely safe and healthy. You can be exposed to infrared light for hours without the risk of burning. Infrared is a naturally occurring output of the sun that does not contain the harmful UV rays associated with unprotected sunlight. Infrared heat is so safe, it is used in hospitals to warm newborn infants.

Health benefits include detox, relaxation, weight loss, heart health, pain relief, anti-aging, muscle recovery, and immunity.

Red Light Therapy

Red light therapy is a type of phototherapy that uses red light to treat skin conditions. It is also used for pain relief, wound healing, and other medical purposes. The red light therapy panel emits both visible red light (660nm) and non-visible near-infrared light (850nm) which provides various therapeutic health benefits which may include anti-aging, increased collagen production, relaxation, increased blood flow, reduced inflammation, enhanced muscle recovery, reduced joint and back pain.

PEMF Chakra Mat

This innovative holistic therapy mat provides the body with five therapy styles that promote a heightened state of general wellness to heal the body, mind, and spirit. This therapy mat helps to alleviate soreness, stiffness, inflammation, and discomfort by utilizing four integrated therapy styles.
