

CANMORE HDH HEAVY DUTY HYPOID GEAR OIL

CANMORE HDH is an amber to dark colored mineral oil. **CANMORE HDH** oils are extreme pressure (EP) automotive gear lubricants made from high quality, high viscosity index (VI) paraffinic base oils. Their special additives make them particularly effective at providing high load- carrying protection with excellent rust, corrosion and foam prevention. Excellent oxidation control and thermal stability prevents the formation of sludge and deposits, leaving clean gears after many thousands of miles service. **CANMORE HDH** oils are suitable for outdoor industrial applications with enclosed gear sets, that require high film strength.

MEETS OR EXCEEDS

- API GL-5
- API MT-1
- ZF TEML 07A and 08
- Ford WSP-M2C197A (HDH 80W-90 & HDH 80W-90 LS grades only)

FEATURES & BENEFITS

- Outstanding service.
- Full industry approvals.
- HDH 80W-90 LS Suitable for service in limited-slip differentials.
- Proven performance over millions of miles.

Supporting data available to demonstrate appropriate performance. Check with your Sales Representative for latest product approvals.

Please note, these are typical performance indicators and can change without notice.

If you have any questions on this product, please consult your account representative at any time.

You should always consult your Owners Manual when selecting any lubricant product. Check with your sales Representative for latest product approvals. Please note, these are typical performance indicators and can change without notice.

TYPICAL RESULTS

GRADE	75W-90	80W-90	85W-140	80W-90 LS
