

# NOVEMBER NEWS

## REPORT FROM THE TOUR

We have come a month into the PBG Tour and by all signs, the interest seems to be growing. The intent of it is to make playing golf exciting and fun, but at the same time, learn more about the game as playing in competitions, golfers need to follow certain rules.

We are all excited about how this is taking shape and from what we can see, those who regularly participate in these events, the effect it is having on their games has been positive. Keep it up everyone!

## OOM POINTS TABLE (as of 4 Nov 2018)

Nothing more exciting than to see your name up on a leaderboard, it was one of my goals when I was on Tour myself on the Australasian PGA Tour back in the 1990's. It just does something to your psyche, lifts you, and especially if you are climbing the ranks, it can really help motivate you. My little noticeboard at the Clubhouse I created is doing just that. Get into everyone, this is just the start, the points are going to mount as the competitions become more popular and field sizes increase. If you are behind now, don't worry, you can catch up through some good consistent golf.
