# Be in total control of your own prepaid business.

## CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

PEC has spent millions of dollars developing and sourcing the best technology available to ensure superior voice quality and uptime to your customers, and reliability & versatility to you as the service provider.

- Cisco hardware guarantees voice quality
- Expand as you grow up to 10,000 calls
- Create an unlimited number of products to sell
- Change selling rates on the fly
- Manage your business on-the-go

## MORE FEATURES. MORE REVENUE.

Be among the leaders in the prepaid industry with these powerful features:

- PIN-less Calling
- Unlimited Resellers
- Auto Recharge
- eCommerce / Web Signup
- Phone & Web Recharge
- Resellers manage customers through web or phone
- Real-time call reporting

## OUR PHILOSOPHY

Unlike most technology companies, PEC realizes that you are NOT a technology company. That's why our philosophy has always been:

*"Take care of your own business & leave the technology to us."*

## TURNKEY SOLUTION

PEC will provide you with all of the hardware, software and training to get you up and running quickly and painlessly.

Based on your capacity needs, we will build you a customized solution that simply requires you to turn the power on.

## flexible prepaid solutions for your business needs

## WORLD-CLASS TRAINING & SUPPORT TEAM

Our team of expert trainers & engineers will assist you to ensure that you understand everything that is involved with running your own system.

In addition, you will have access to support 24 hours per day 7 days a week, 365 days a year.

## A total end-to-end solution.

## A SYSTEM TO CALL YOUR OWN

Be in control of your own destiny. Operating your own system means that you have complete control over the products you sell & the rates at which you sell them.

Release unlimited new products, add new resellers and track sales in seconds.

## DIRECT DIALING

Customers simply dial one local access number from their registered phone and the call will be routed to any destination in the world. No more PINs and no more long international numbers to dial.

## CALL FORWARDING

Allow your customers to forward calls through your service to any phone in the world. Customers can use this to be accessible regardless of where they travel in the world. It can also be used to give your customers local presence in countless places.

## PHONE & WEB TOP OFF

Customers can recharge their accounts by using a top-off voucher through the phone or web. Customers can also register for auto-recharge so they never run low on their balance.
