# Winter is Coming. . .

Welcome to "Winter is Coming", a special holiday recital featuring the talented Steelpan students of the South Florida Steelpan Academy. As a non-profit music academy, our mission is to make high-quality music education accessible to students from all walks of life through the teaching of music literacy and playing techniques for the Steelpan. The funds raised from this event will be directly invested into several key areas that are critical to the continued success and growth of our academy:

- **Tuition Assistance & College Scholarships\*\*:** We strive to remove financial barriers for talented students, helping them pursue their passion for music without the burden of tuition costs.
- **Instrument Purchase & Rental Program\*\*:** Many of our students face challenges in acquiring quality instruments. The funds raised will help subsidize the cost of purchasing instruments and establishing an instrument rental program, ensuring that all students, regardless of their financial situation, have access to the tools they need to succeed.
- **Permanent Home for the Academy\*\*:** Our long-term goal is to establish a permanent, stable location for the academy, where we can continue to grow and serve our community.

We believe that music has the power to transform lives, and with your support, we can ensure that this opportunity is available to as many students as possible. Your contribution to our Holiday Recital will not only help showcase the talents of our students but will also have a lasting impact on their future success in music and beyond.

Gerard Boucaud  
Chief Executive Officer

A diagram of a cell with various organelles labeled with letters. The cell is roughly circular. On the left side, there are several oval-shaped organelles, some of which are labeled 'E', 'F', 'G', 'D', 'A', and 'C'. On the right side, there are larger, more irregularly shaped organelles, some of which are labeled 'A', 'D', and 'G'. The labels are placed within or near the organelles they represent.
