

Flying Safety Rules and Guidelines

(Updated on November 28, 2022)

Call out before you do any of the following:

- Bike path clear, taking off.
- Landing
- Dead stick
- Touch and go
- On the field
- Clear

The yellow line on the runway, closest to the fence is a “No Cross Boundary Line”. Stay in front of that line at all times.

Do not fly over the “No Fly Zones” (see map).

The yellow line on the concrete by the pavilion is a “No Cross Line” for spectators.

Delay taking off while people are on the bike path.

Maintain safe altitude over the bike path.

Do not fly over the waste ponds.

Only person flying:

You may do low passes over the runway.

You may also fly the pattern in any direction you want regardless of wind direction.

Two or more people flying:

Takeoffs and landings will be done into the wind.

The into the wind pass will be over the centerline of the runway.

The downwind pass will be farther out from the runway.

Flying low over the runway is not permitted unless you call out “Touch and Go” or “Landing”.
