

April 2021

I hope this letter finds you well, and looking forward to a new growing season in 2021. Although 2020 had its challenges there is hope that 2021 will be a great year.

Seeds Sales Update

With the grain markets on a positive trend, seed sales increased later in the fall and slowed over the holidays into the new year. With Seed sales at this time picking up I thought we would send out this shorter version (of our quarterly update) just to update you on what we have available for the Spring of 2021.

CDC Inca Yellow Peas

- With the yellow pea markets strong our Inca sales increased substantially year over year. At this time we are **sold out**.

CDC Orion Kabuli Chickpeas

- Kabuli Chickpea sales are steady with certified seed still available.

Certified Durum

- Durum sales this year are less than the previous years, but all in all still quite good with a couple great varieties still available.

CDC Precision Durum

- Excellent Yield
- Shorter Straw

CDC Alloy Durum

- Excellent yield
- Great Drought tolerance

-Sold out

AAC Succeed Durum

- Midge tolerant durum
- Excellent yield
- Excellent drought tolerance

Upcoming Varieties

CDC Defy

- 112% Yield of AC Strongfield
- MS to FHB
- Excellent straw strength

We will be growing **CDC Defy** this up coming season and will have certified seed for sale for the 2022 planting season!

This is a shorter version of our quarterly email and will be sending out another email in the summer

We wish you a prosperous successful farming season in 2021.
