I had the pleasure of working with Dion Ross at Pentagon Technologies. I watched as Dion quickly became a vital member of the team due to his high level of professionalism, dedication, and poise. People seem to naturally gravitate toward Dion. I think it is because he strives for an inclusive work environment where everyone feels valued.

On many occasions, I observed (and admired) his innovative approach to improving work flow.

Dion has a contagious positive attitude. Please consider this letter as my recommendation of Dion. Feel free to contact me for further discussion.

Warm Regards,
