Digital Services – Content and Digital Assest Management

Stealth solutions (Stealth) digital services focus on enterprise-level Web Development and Support Services, leveraging Acquia's Drupal, Adobe AEM, open-source technology, and DevSecOps. We deliver premium, customized solutions for Federal, State, and local government entities, using Agile execution to create exceptionally crafted enterprise websites. These websites comply with the 21st Century Integrated Digital Experience Act (IDEA), the United States Web Design System (USWDS), and Web Content Accessibility Guidelines (WCAG). They prioritize intuitiveness, visual appeal, ease of navigation, and interactive graphics and content, including maps.

Services Offered

At Stealth, we offer digital services to help government customers effectively communicate their mission and connect with constituents:

- ❖ **Creative Design**: We craft captivating visual experiences that convey the impact of federal programs. Our team excels in producing compelling designs, content, illustrations, and digital images, leaving a lasting impression on diverse audiences.
- ❖ **UX/UI Services**: Utilizing Human-Centered Design (HCD) and UX/UI principles, we optimize content to enhance user engagement, survey responses, and utilization of customer data products and websites. We build on research findings, personas, and user journeys to continuously refine and improve digital products.
- ❖ **Implementation Services**: We develop and maintain secure, accessible websites that adhere to the United States Web Design System (USWDS) and mobile responsiveness standards. Our approach integrates web design and development with compliance assessments to ensure alignment with federal regulations at every stage.

❖ **Drupal** (7,8,9, and 10) CMS	❖ Adobe Content Management System (AEM)
❖ HTML/CSS Implementation	❖ JavaScript frameworks (e.g., React, Angular, Vue.js) / jQuery
❖ Bootstrap or Tailwind CSS	❖ Adobe/Google Analytics
❖ Siteimprove	❖ Foresee
❖ Responsive Design	❖ Mobile and Accessibility Compliance
❖ United States Web Design System (USWDS) Compliance	❖ Functional, usability, performance, cross-browser, and compliance testing
❖ AWS Hosting	❖ In-premise Linux and Windows hosting
❖ Azure hosting	❖ Acquia Cloud hosting
❖ Agile Execution (Scrum, Kanban, etc.).	❖ Program and Project Management with Federal Agencies (USAID, Department of Commerce, UIAF, etc.)
