CAPABILITY STATEMENT

About us!

At Mithun Group Investments, we deliver robotics and automation solutions that suit Australian needs.

We combine global technology with local insight to meet the needs of businesses across commercial, healthcare, education, and industrial sectors.

Our focus is on long-term value—enhancing performance, safety, and sustainability through tailored integration and expert support.

We understand the Australian market requires more than just technology—it demands home-grown insight, practical know-how, and solutions designed for long-term growth, as a trusted partner for your organisation.

Our Leadership Team

Mithun Gunaratnam - Managing Director

Mithun brings deep expertise in commercial robotics, having led major innovation projects at SoftBank Robotics. His leadership keeps Mithun Group at the forefront of automation in Australia's largest facilities.

Harold Walsh - Associate Director

Harold brings strong commercial and strategic experience, with a track record in delivering operational and sustainable outcomes across diverse projects. He ensures our robotics solutions drive real client value.

Hospital Use case

Tray delivery robot covers delivery task between kitchen and halls

Drone facade inspection and window cleaning

Receptionist robots cover reception tasks

AGVs cover delivery of linens and food to rooms

Cleaning Robots cover cleaning tasks

Our Commitment and Expertise

We design and deliver tailored robotics and automation solutions across commercial, healthcare, education, retail, and industrial environments.

Our approach combines deep industry insight with advanced technologies to enhance performance, safety, and sustainability.

We provide transparent reporting, ongoing support, and a clear focus on compliance and continuous improvement—ensuring lasting value from every automation investment.

We are committed to sourcing the most environmentally sustainable solutions for our clients.

Our Core Capabilities

- Robotics and Automation Solutions: Tailored solutions designed for operational efficiency and improved safety.
- Comprehensive Consultancy: Expert advice and strategic implementation support for businesses adopting robotics.
- IoT and Data-Driven Technologies: Real-time monitoring and analytics to enhance performance.
- Strategic Partnerships: Exclusive collaborations with world-class robotics brands like Gausium, Rosiwi, SparkOz, Cenobots, and Pudu.

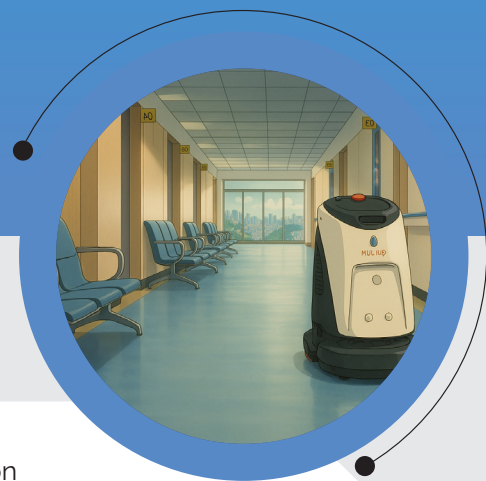

Why Choose Mithun Group Investments?

Industry-Leading Technology: We provide access to innovative robotics technologies from globally recognised brands.

Expertise & Experience: Combined 15+ years of experience working in robotics and automation in Australia.

Holistic Approach: From consultation through to implementation, we deliver end-to-end project management.

Proud Robotics & Automation Solutions Partner for:

Message from the Managing Director

At Mithun Group Investments, we are committed to pioneering robotics and automation solutions that make Australian industries safer, smarter, and more productive.

We collaborate with public and private sectors to enhance operational efficiency, elevate safety standards, and actively contribute to achieving critical sustainability goals.

Our strategic partnerships with industry leaders guarantee that our clients receive dependable, purpose-built automation systems tailored precisely to their needs.

We conduct thorough due diligence and rigorous product testing and evaluation, ensuring we consistently deliver and represent only the best technology solutions available in the market.

Together, let's drive progress and unlock new possibilities through intelligent automation.
